## Solons Authorize Water System Shift

Ho; For The North Pole; Flyers Blaze Shenandoah's Trail

## BANDITS ROB MOTORIST, GIRL

This is the advance party of the U. S. Navy's North Pole Expedition. They are flying to Alaska via Seattle from Washington, D. C. There they will make a base for the Shenandoah, the giant dirigible. Left to right: Robert Francis, A. K. Anderson, Lieutenant B. H. Wyatt, in charge of party, and R. J. Carter.

## CLAIMS GIGANTIC BREAD TRUST HAS COUNTRY IN GRIP

WASHINGTON, Feb. 14.—A colossal "bread trust" is robbing American homes of \$1,000,000 a day, Basil Manly, head of the people's legislative service declared today in a report to Senator LaFollette and other Progressive leaders, demanding congressional action against the "combine."

Bread should be selling at five cents for a pound loaf, instead of for nine cents, Manly said, basing his statement on the present price of wheat.

Manly's report was based on an investigation made at the request of Progressive congressmen who desired to know why bread prices remained virtually at the war level while wheat went back below pre-war prices.

Bread made from American flour is today being sold in England at four cents a pound, Manly reported. He charged that millers, bakers and retailers are making enormous profits on flour and bread.

Manly cited the General Baking company, which he declared in 1922 made 117 per cent on each share of stock. Profits for 1923 were even greater, he asserted.

As a result of these alleged profits and stock dividends, one dollar invested in General Baking company common stock in 1916 is now worth \$309, Manly said.

Bread prices in American cities are declared by Manly to be "arbitrary and artificial," and violating all economic laws. Bread costs two cents less a pound in New Orleans and Houston, far away from the wheat and flour milling states, than in Chicago, Omaha, Butte and St. Paul, all in the heart of the wheat belt, he said.

Boston, Bridgeport, New Haven and other New England cities pay less for bread than any city in the grain belt, except Kansas City, Manly reported.

These "artificial and excessive prices" are fixed and maintained by retailers, supported by the large wholesale bakers, either voluntarily or under threat of boycott, the report charged.

"CARE OF THE BABY"  
SACRAMENTO, Cal., Feb. 14.—The bureau of child hygiene of the state board of health has a new publication entitled "Care of the Baby," copies of which may be obtained from the bureau, 335 State building, San Francisco.

## Fear Grips Politicians As Big Oil Probe Threatens to Spread

WASHINGTON, Feb. 14.—Washington is rumor mad and politicians are literally hysterical with fright.

Every man in public life who ever bought a share of oil stock is afraid his name will be dragged into the Teapot Dome scandal. Men who had more damaging connections with the leading figures in the case are waiting in a sort of numb terror for the blow to fall on them.

The result is that the whole 1924 presidential campaign has been turned topsy turvy.

William G. McAdoo, drawn suddenly into the oil picture in a way that threatened to smash irretrievably his presidential aspirations, will try to turn the scandal to his advantage. He has summoned to his standard, all, regardless of

party, who feel so outraged by the senate revelations that they are talking grimly of a third party and La Follette for president.

McAdoo will put his fate to the test at a conference in Chicago February 18. Having explained in vigorous language that his connection with E. L. Doheny had no reference to oil leases, he is confident today not only that his democratic followers will reaffirm their faith, but that new adherents will flock to him.

But there is still a great deal of misgiving among Democrats about McAdoo. It is evidenced in new booms for Cordell Hull, Tennessee, chairman of the Democratic national committee, and Homer Cummings, Connecticut, former chairman.

Death Takes Mrs. Obregon's Father  
HERMOSILLO, Sonora, Mex., Feb. 14.—With Mrs. Obregon, wife of the president of Mexico, arranging details, funeral plans were under way here today for Francisco Tapia, father of Mrs. Obregon, who died here yesterday at the advanced age of 75.

## Breaks Seven Auto Laws; Pays Out \$150

WATTS, Calif., Feb. 14.—Michael O'Brien paid a \$150 fine here today when he pleaded guilty in justice court to violating the following motor laws—all at once:

- Speeding.
- No headlights.
- Cutting corners.
- No license plates.
- No operator's license.
- Driving on left side of street.
- No dimmers—on the headlights that didn't light.

## Youth In Daring Dash From Train Escapes Officer

HOLLISTER, Calif., Feb. 14.—A 19-year-old youth named Zangly, who was being returned from Pomona, Calif., to Jacksonville, Ore., to face a charge of burglary, escaped from a Southern Pacific train near Chittenden, Calif., last night.

The boy locked himself in the washroom and while the train was going 45 miles an hour, broke the window, let himself down to the brake rods and then slipped away in the darkness when the train slowed down.

An all night search failed to find a trace of him. He was arrested in Pomona several days ago as the result of a description furnished by a police circular.

## Lose \$390 Because Calf's Legs Bowled

TIPTON, Cal., Feb. 14.—There are few things more humiliating than crooked calves.

So, when a high-priced, purebred Holstein on the Rouett Improvement company's ranch presented her owners with a bow-legged little baby cow they held a consultation, decided the legs couldn't be straightened and sold the calf for \$10 to a butcher.

Had the legs been straight the calf would have brought \$400.

"I want to buy a car," she cried. They pointed to the classified.

## JOPLIN WINS BATTLE ON GAME LAW

Court Holds Part of Refuge Statute Is Unconstitutional

In a written decision handed down here today, Superior Judge R. Y. Williams sustained the contention of County Treasurer J. C. Joplin with reference to the state game refuge law, and declared that the law, so far as it applied to inclusion of private lands in a game refuge without compensation or consent, was unconstitutional and void.

The decision, which reversed a recent justice court judgment, wherein Joplin was fined \$25 for hunting doves upon his own property in Game Refuge 4 C, definitely establishes victory for Joplin in the latter's test of the game law, since the court's ruling in the case, it has been established, is not appealable.

In a lengthy opinion, Judge Williams reviewed the stipulated facts of the case as laid before him by counsel for both presentation and defense, and concluded, in effect that the legislature exceeded its right and went beyond limitations imposed by the constitution for the protection of individual property rights.

"It is plain to see that the law would create a servitude upon private property," states the opinion, after quoting the section under fire and interpreting it to be of such drastic and far-reaching effect as to prevent the property owner from keeping a dog or raising pigs and cattle upon his own property.

"In fact," says the decision, "the (Joplin) cannot have the wishbone of a chicken in his possession without violating this section if it applies to his property."

Joplin maintained that the state had no right to include private lands within the game refuge without consent of the owner or to appropriate private lands for a public use, in this instance for perpetuation of game, without compensation to the owner.

Joplin deliberately arranged to have himself arrested in order to test the law. He asserted that his land was not legally included in the game refuge.

While ruling the statute to be void, Judge Williams, in his decision, answers the objection of the fish and game commission that it exclude Joplin's land from the refuge would work an injury to the refuge and defeat the state's attempts to conserve and perpetuate game.

Acknowledging that the entire statute is included in various game districts, the court declared that "it is determined to be for the public interest in the preservation of game, the legislature, undoubtedly has the right to restrict killing of deer in certain game districts for a period of years, or the state could condemn for public use the reservation of a game servitude in defendant's land, paying him what a jury would determine was the value thereof. The board would have the right to fence or guard defendant's land so that deer could not go thereon."

Claims Misunderstanding  
Referring to another place to the act, the opinion states:

"It is such an act as could be passed for the regulation of public lands made a game refuge, but it is far beyond what could be done to private lands, the right to which has not been conveyed to the state as provided for in the act hereinbefore referred to, or acquired by eminent domain."

At another point, the opinion states:

"If it was the intention of the legislature when it created Game District Four C to make it immediately into a game refuge, a sanctuary where all birds or animals might be safe and not interfered with at all without the consent of the board of fish and game commissioners, then knowing that no law could be passed confiscating private property, one cannot avoid the conclusion that the legislature in creating said game district thought it was only dealing with the territory included within the Cleveland national forest reserve, as first stated in the act."

Joplin's case was presented before the court by Attorneys L. A. West and H. C. Head.

The first innings concerning the fight made by Joplin to get his land out of the game reserve began at Sacramento during the session of the legislature. At that time a bill was presented amending the boundaries of the refuge so that Joplin's land might be excluded. Locally a

## DARING TRIO ESCAPE ON FREIGHT

Holdup Victims Forced to March Through Orchard At Point of Pistols

Although admittedly following down here today, Southern California peace officers today were seeking to place in custody a trio of "hit and run" bandits who at the points of automatic pistols shortly before midnight last night robbed Clarence Brown of Tustin and his girl companion and escaped on a freight train, carrying out one of the boldest and most cleverly executed robberies known in the annals of Orange county crime.

After having been stopped by a man who jumped on the running board of his touring car, Brown, an employee of the Havens Seed company of this city, was compelled to drive down a dark street where two other armed highwaymen marched them into an orchard, robbed them, damaged the automobile and then boarded a passing freight train, according to Brown's statement to the police here.

Joined By Comrades  
The daring hold-up occurred on East Chestnut avenue here. The highwayman who jumped on the side of the machine ordered Brown to drive west on Chestnut avenue until they reached Lyon street, a quarter of a mile distant. At this point the party was met by two other men who stepped out of the shadows with pistols leveled at their two victims.

The bandits then forced the couple to walk through a walnut orchard while the first highwayman stayed behind.

The money, which brings the total amount recovered up to approximately \$12,000, was found buried in the back yard of the property at Torrance of J. W. Hemmi, one of the defendants, now under arrest in the county jail at Los Angeles, postal inspectors declared.

In addition to the finding of the money, it was also announced by postal inspectors that another of the accused men had made a statement concerning his asserted innocence of participation in the robbery, which resulted in the arrest of Hemmi, former prospective candidate for city attorney of Anaheim; J. R. Abernathy, former superintendent of public schools at Anaheim; Charles R. Wheeler, registry clerk in the Anaheim postoffice, and J. L. Findlay, messenger in that office, at the time of the robbery, in which approximately \$25,000 in cash was stolen.

In the garage of Hemmi, in whose yard the \$5,570 was recovered, there was also found a black bag, in which, it was said, the currency was transported following the robbery of the post office. This bag was mentioned in the original confession made by Findlay at the time of the robbery.

The currency found buried had been carefully wrapped in five packages, one of which contained \$2500 in \$1 bills. The packages had been enclosed in a wooden packing case and buried about eighteen inches from the surface of the earth. Hemmi was taken to the scene and directed the operations of inspectors Rose and Lowe while they dug for the buried

Analyses of water from six of the city's wells and from the First street reservoir, all of which have been in use for a week, show the water to be virtually sterile. R. F. Goudey, southern division engineer of the state board of health, announced here today.

Goudey stated that he himself made the analyses yesterday at the county laboratory at the Orange county hospital.

"No doubt in a short time water from the First street plant will be safe for domestic use," Goudey said.

(Continued on Page 6)

## Hiram, On Campaign Tour, Raps President For Backing Denby

DANVILLE, Ill., Feb. 14.—Refusal of President Coolidge to oust Secretary of the Navy Denby from his cabinet is in effect presidential approval of Denby's Teapot Dome dealings, Senator Hiram Johnson, California, candidate for the nomination for president on the Republican ticket, declared in a speech here today.

The senate was entirely within its rights when it voted "no confidence" in Denby and asked for his removal, Johnson declared.

"Mr. Coolidge personally on Attorney General Daugherty when he turned away from

## Drop Skull as Clue In Schick Death

SAN DIEGO, Cal., Feb. 14.—A skull found near Chula Vista and believed possibly to be that of George E. Schick, missing broker, was identified today as that of a Mexican.

J. C. Davidson of Chula Vista told Sheriff Evers that the skull was one brought from Mexico by his son, Alden, about a year ago, as a curiosity.

Last spring Mrs. Davidson placed it in the gunnysack and dumped it at the side of a road where the skull lay until it was discovered brought forth as a new find in the Schick case.

## SIX KILLED AS TEUTONS RENEW WAR

Separatist Leader and Five Followers Perish In New Drive By Loyalists

LONDON, Feb. 14.—Six separatists, including Leader Jager were killed today at Badduerkheim, according to an Exchange Telegraph dispatch from Berlin.

One man was killed and eight wounded when Communists attacked safety police at Stettin during the night. Communists from Solingen and Bruhl, in the British zone taking advantage of the anti-separatist disturbances throughout the Rhineland, attacked a detachment of safety police from Cologne.

The police were surrounded in a bank where they had taken refuge and several were wounded, while a number of the attackers fell.

## DIG UP \$5,500 ADDITIONAL P. O. LOOT

An additional \$5,570 thought to have been stolen from the Anaheim postoffice December 27, last, has been recovered by postal inspectors, it was learned here today. The money, which brings the total amount recovered up to approximately \$12,000, was found buried in the back yard of the property at Torrance of J. W. Hemmi, one of the defendants, now under arrest in the county jail at Los Angeles, postal inspectors declared.

In addition to the finding of the money, it was also announced by postal inspectors that another of the accused men had made a statement concerning his asserted innocence of participation in the robbery, which resulted in the arrest of Hemmi, former prospective candidate for city attorney of Anaheim; J. R. Abernathy, former superintendent of public schools at Anaheim; Charles R. Wheeler, registry clerk in the Anaheim postoffice, and J. L. Findlay, messenger in that office, at the time of the robbery, in which approximately \$25,000 in cash was stolen.

In the garage of Hemmi, in whose yard the \$5,570 was recovered, there was also found a black bag, in which, it was said, the currency was transported following the robbery of the post office. This bag was mentioned in the original confession made by Findlay at the time of the robbery.

The currency found buried had been carefully wrapped in five packages, one of which contained \$2500 in \$1 bills. The packages had been enclosed in a wooden packing case and buried about eighteen inches from the surface of the earth. ## BARE NEW ANGLE IN SCANDAL

Attorney General Backs Fall Despite Views of Standard Attorney

## REVEALS PLANS TO KEEP LEASE SECRET

Committee Delays Questioning of Vanderlip on Harding Paper Sale

WASHINGTON, Feb. 14.—The senate oil committee decided this afternoon to investigate immediately reports that the big oil interests circulated a "\$1,000,000 slush fund" among Washington officials. Edward B. McLean, publisher and intimate friend of the late President Harding, has been subpoenaed as the first witness. McLean is in Palm Beach, Fla., but is expected to take the stand before the end of the week.

(By United Press Leased Wire)  
WASHINGTON, Feb. 14.—Postponing until tomorrow the questioning of Frank A. Vanderlip, New York financier, regarding his statement that the late President Harding's sale of the Marion Star ought to be investigated, the senate Teapot Dome committee today got testimony which showed:

That Attorney General Daugherty gave "informal and verbal" approval to the naval oil leases and contracts for exchanging oil for storage under which Doheny and Sinclair got the oil leases.

That Daugherty's opinion was given in the face of a written opinion from a Standard Oil lawyer that the proposed leasing plan was "absurd" and illegal.

That Fall knew of the Standard Oil lawyer's opinion but did not think it necessary to ask a formal opinion from Daugherty.

Keep Leases Secret.  
That under instructions from former Secretary Fall, the leasing of Teapot Dome was kept secret, orders being issued to all in the interior department to give out no information.

That Fall promised to see that Sinclair "took care" of John Shaffer, owner of several newspapers, who claimed an interest in the Pioneer Oil company's rights to Teapot Dome.

That Sinclair has obtained \$92,000 from Fall under an agreement growing out of his claim.

Assistant Secretary of the Interior Finney testified that he was present when arguments were heard by Fall concerning dismissal of a suit against the Standard Oil company of California relating to the title of section 35, rich section of naval reserve No. 1.

Finney said no one was heard by Fall except Oscar Suro, Standard Oil attorney, and that Fall thereupon dismissed the government proceedings and permitted the Standard to retain the section.

Finney said he now disagrees with the ruling of Fall, but that he put forward no protest when the decision was made.

Finney's testimony as marked by the suggestion from Senator Walsh, Montana, that Finney was not telling the committee all he knew.

"I want the record to show," said Finney as he concluded his testimony, "that I am not consciously concealing anything from this committee."

Walsh repeated that he could not "resist the conclusion that Mr. Finney has not done all he could to help the committee get at the facts."

Walsh's statement was caused by Finney's inability to explain definitely why a formal opinion was not obtained from Daugherty and his statement that he could not remember sending out the order for secrecy regarding the Teapot Dome lease.

Questioning Finney, Walsh brought out that Fall was away when the "hush" memorandum was sent to bureau chiefs. Finney said that he must have sent it out, although he did not remember.

Hopes Fall Honest  
Kinney, who still holds his position in the interior department, said he believed the leases were valid.

"I believed then and I hope now that Mr. Fall is honest," Finney said.

Other developments were impending today that threatened to

A RELIABLE COUGH REMEDY

Why experiment with unknown remedies for that cough or cold when you can secure FOLEY'S HONEY AND TAR COMPOUND? It is a safe and reliable remedy for the relief of coughs, colds, hoarseness. Equally beneficial for young and old. Mrs. Anna Cornell, Bridgeton, N. J., states: "I bought FOLEY'S HONEY AND TAR COMPOUND for my cold and find it great." Insist upon the genuine. Refuse substitutes. Sold everywhere.

We guarantee to teach you to dance in six lessons for \$5.00, at Perle's Dancing Academy, 243 W. Center St., Anaheim.

Action As To Jail Bids Is Deferred

Action on bids for the contract of equipping the new county jail had today been deferred for another week by the board of supervisors, who were scheduled to award the contract next Tuesday. The equipment contract, taken under advisement a week ago, was slated for action late yesterday but the supervisors decided to withhold their decisions for another week. Several bids, ranging from \$53,890 to \$82,798, were before the board.

FORM CLUB OF EQUESTRIANS IN COUNTY

Can you ride a horse—and would you like to join an Orange county riding club?

If so, here is your grand little opportunity. All the preliminary details were thrashed out last night at the farm bureau by Assistant Farm Advisor W. M. Cory, Ed G. Stinson, Walter Lamb and others interested in the movement. "As a result of this meeting of the riding committee," said Cory, "we have arranged to have a meeting of all interested parties on the Irvine ranch Saturday, February 23, when stunts by well conditioned horsemen will be in order. There will be picnic lunch, after which actual formation of the club will be discussed by the assembled men and women. L. G. Swales, Stinson and others will have charge of the details of organization at the ranch.

"This club will be open to any man, woman, boy or girl in Orange county who is desirous of joining us. If those interested will get in touch with me at the farm bureau, or with L. G. Swales, all details will be explained in connection with the meeting planned for the Irvine ranch February 23."

Cory expressed the belief that the membership of the club will include some of the best known men and women in Orange county.

W. R. Skiles and wife yesterday moved from 418 Fruit street into their new home, 815 West Third street, recently purchased from Mr. and Mrs. J. R. Ball.

William Wilde, a member of the city mail delivery force, is seriously ill with typhoid fever, at his residence, 1219 West Third street. His temperature today reached 105.

Mr. and Mrs. Frank Cassaday of 1014 North Parson street, yesterday had the pleasure of a visit from their cousins, Mr. and Mrs. Ed Brock of Riverside, New Jersey, who are on a flying trip to the coast.

Mrs. Kate Gobang, who has been visiting her mother, Mrs. B. E. Quaid, left today over the Southern Pacific for her home in Euclid, Ohio.

Mrs. Charles N. Elliott, who has been visiting in Orange, left today over the Southern Pacific for her home in Indianapolis, stopping over at Fort Worth.

Mr. and Mrs. J. B. Catherina of 502 East Fourteenth street left yesterday for Little Rock, Ark. They traveled over the Southern Pacific.

W. E. Becker left over the Southern Pacific Tuesday for Fresno.

Miss E. Kolberg of Orange plans to leave tonight over the Southern Pacific for Portland, Ore.

The Rev. James H. Hughes, assistant pastor of the First Methodist church, is expected home tonight from Santa Barbara, where he was called by the illness of his father, who is reported as much improved.

Reports today from the home of Mrs. Ardine Clayton of 717 North Main street, who has been very ill, are that she is greatly improved and hopes to be able to be up in a few days.

Miss Sadie Singer, daughter of Mr. and Mrs. Louis Singer of 520 West Fifth street, is improving rapidly following an operation at the Santa Ana Valley hospital for appendicitis. Miss Singer is now at home.

Miss Murrell Raab, of the clerical department of the First National bank, who has been ill with typhoid fever for the past four weeks, is now reported as improving.

Miss Norma Wingood, who is ill with typhoid fever at Coronado, is reported by her uncle, W. G. Gould, as doing as well as can be expected and is able to sit up for a few moments. She will remain at San Diego until well along towards recovery, her aunt, Mrs. Gould remaining with her.

Mrs. Pope Hill, formerly Miss Marguerite West, daughter of Judge Z. B. West, who resides in Pasadena, has returned from a visit to Oakland, where she went to recuperate following a recent illness.

Mrs. Elmer A. Biggs was a visitor in Santa Ana yesterday, coming down on business. Mrs. Biggs is matron at the State School for Girls at Ventura.

A. A. Adams, whose home is in the Philippine Islands, and who has been visiting here, left this morning on the Santa Fe Limited for Colorado Springs, Colo., en route to Lebanon, Kan., where he will visit his mother.

Mrs. Mildred Culver, head of the ready-to-wear department of Hildert's, left yesterday over the Union Pacific for Salt Lake City. She has been in poor health, following an attack of the prevailing epidemic, and will be absent a month or six weeks in an effort to recuperate.

Expect Salvation Army Leaders Here

Commander Adam Gifford, territorial leader, and members of his staff will attend the opening of the new Salvation Army building here Wednesday evening, February 20, according to Commander J. C. Douglas today.

Many staff members from Los Angeles, San Francisco and other cities will come to Santa Ana for the opening, it was said, and music will be furnished by Army Band No. 2 of the Los Angeles unit. Well known Santa Ana residents have been invited to attend the opening. Ceremonies will start at 7:45 p. m.

DAUGHTER'S DEATH FOLLOWS MOTHER'S

Coming but two days after the burial of her mother, Mrs. Josephine Yorba de Smythe, Tuesday, the death early this morning of Mrs. Fred Rimpau, the daughter, and member of the pioneer Orange county family, again threw the city of Anaheim in sorrow.

Grief over the illness and death of her mother, who was 81 years old, and her own short illness was ascribed as the cause of Mrs. Rimpau's demise, which occurred at the home of her husband, 914 West Broadway, Anaheim, where Mrs. De Smythe also resided. Mrs. Rimpau, who had been a resident of Anaheim for more than fifty years, was 65 years old.

Acquits Realtor Of Fraud Charge

Jack Gaines, Orange real estate agent, was today acquitted of a charge of obtaining money under false pretense, when Justice J. B. Cox, at the conclusion of Gaines's preliminary hearing dismissed the charge.

Declaring that they sold their automobile to obtain money to invest in a Signal Hill oil well, Leonard Erickson, and his wife, Gladys, testified that Erickson, formerly employed by Gaines, paid the latter \$700 for an interest in a well at Signal Hill, after Gaines had, he said, represented that the well would be producing shortly. Defense Counsel Richardson secured the admission from Erickson that, so far as the witness knew, the well might be producing right now. Erickson, it appeared however, had not realized on his investment. The court, in freeing Gaines, held that there were not sufficient grounds for the complaint.

## MASONIC CHIEF

GREETED HERE  
AT MEETS

Masons of Orange county last  
night held a reception in the lo-  
cal temple for Arthur S. Crites,  
grand master of Masons of Cali-  
fornia, who was here from Bak-  
ersfield on an official visit to the  
lodges.

Officers of the various lodges  
assembled at Ketter's cafe early  
this evening for a dinner com-  
memorating the distinguished vis-  
itor. Approximately 100 men were  
present.

At the conclusion of the dinner  
the party went to Masonic tem-  
ple, where the grand master was  
greeted by more than 200 Masons.  
Grand Master Crites, in an ad-  
dress, discussed the activity of  
the organization in this state, his  
recapitulation being of special in-  
terest to the members.

Warren Gill, prominent Mason  
of Los Angeles, accompanied the  
grand master to Santa Ana.

Vocal solos by Fred White, ac-  
companied by E. M. Sundquist,  
and piano solos by the latter,  
composed the musical program ar-  
ranged for the evening.

Reorganization and reopening of  
the Keen Hat stores at Long  
Beach, Fresno, Anaheim, Bakers-  
field and Alhambra, closed when  
their promoters were arrested in  
Los Angeles early this week, today  
has been approved by a stockhold-  
ers' meeting at Anaheim, accord-  
ing to George F. Townsend of  
Long Beach, one of the instigators  
of the charges which led to the  
arrest of O. C. Hardebeck and  
Glenn Churchill.

Falling to supply bail for their  
release, Churchill and Hardebeck,  
charged with obtaining money un-  
der false pretense, in connection  
with an alleged \$200,000 stock sale  
fraud, involving the hat stores,  
were still held at the county jail  
here today.

The majority of the \$200,000 in  
stock held sold was represented  
at the Anaheim meeting, Townsend  
said.

Examination of the books kept  
today by Hardebeck and Churchill  
revealed, Townsend said, that part  
of the profits had been used to  
pay the salaries of the two men  
and that their expenses and mileage  
had been charged to the business.  
Something like 45,000 miles was  
so charged, the Long Beach man  
asserted.

Organized and owned by B. R.  
Ford and A. H. Britton, the Uni-  
form Mixed Concrete company of  
Santa Ana today began hauling  
material for the construction of a  
mixing plant on Santiago creek  
east of the bridge crossing the  
creek on South Glassell street, Or-  
ange.

Plans of the company provide  
for the expenditure of approxi-  
mately \$50,000 in the mixing plant,  
motor trucks and other equipment  
required in the business, Ford  
said.

Ford estimated that with the  
concrete being mixed at the plant  
under a new process, paving and  
other construction work will be re-  
duced by 10 per cent.

It is the intention of the com-  
pany to do a general commercial  
business delivering the mixed ma-  
terial to all contractors who may  
want to avail themselves of the  
facilities of the company.

Machinery for the plant has  
been ordered from the east. It is  
possible the company will begin  
operations by March 20 or April  
1, it was said.

4 Fined \$15 Each  
As City Speeders

City Recorder W. F. Heathman's  
report today showed four fines of  
\$15 each for traffic violations. M.  
Sant, accused of speeding within  
the city limits, and C. L. Edinger,  
A. A. Jarrell and Mrs. Harvey Ed-  
son Smith, charged with speeding  
across dangerous intersections,  
were those in court, according to  
the recorder.

Noted California  
Indian Chief Dies

YREKA, Cal., Feb. 14.—"Bogus  
Tom" Smith, once chief of the  
Shasta Indians and former chief  
of all the Indian tribes of Califor-  
nia, is dead at the age of 105.  
"Bogus Tom" was born in 1818  
and was prominent in the ne-  
gotiations with the federal gov-  
ernment which resulted in the  
Indians of the state living at  
peace with Uncle Sam since the  
annexation of the territory.

New Treatment For  
Varicose Veins and Ulcers

Swollen veins are dangerous and  
often burst. Sufferers are advised  
to get a two-ounce, original bottle  
of Emerald Oil (full strength), at C.  
S. Kelley Drug Co. and start to  
reduce the veins and bunched at  
once.

Physicians recommend Emerald  
Oil; it is used in hospital practice  
and a small bottle will last a long  
time, because it is very concentra-  
ted and a little goes a long way.  
Apply night and morning with a  
soft brush as directed until the  
swelling is reduced to normal.

So marvelously powerful is Emer-  
ald Oil that swollen glands and  
even goitre disappear when used  
steadily. Mail orders accepted.—  
Adv.

Sister of Major  
Lague Arbiter  
Called By Death

Although he had been previous-  
ly advised that conditions were  
extremely grave, Henry ("Hank")  
O'Day, veteran National league  
umpire received a severe shock  
here today when he was informed,  
on the eve of his departure  
for Chicago, that his sister, who  
had been seriously ill for several  
days, died last night in the Illi-  
nois city.

O'Day, who came to Orange  
county to recover from a severe  
attack of influenza, had intended  
remaining at St. Ann's until  
March 1. Messages telling of the  
serious illness of his sister cut  
short his stay.

"I shall always remember Santa  
Ana as one of the best cities in  
the United States," said O'Day,  
"and I go East a booster for your  
climate and your accommoda-  
tions."

"A sick man who can't get well  
in Orange county, can't recover  
anywhere," was O'Day's parting  
compliment.

which are consistent with the in-  
terests of all and show the real  
advantages of Santa Ana as re-  
flected by this survey of facts."

"To date the reports returned  
from companies doing manufactur-  
ing and jobbing are nearly 100 per  
cent completed," said M. N. Alder-  
man of the industrial department.  
"However, there are still a few  
outstanding questionnaires. It is  
hoped that all will be filled out  
and returned by tomorrow in order  
that the work may go forward  
without delay."

"Santa Ana is to be congratulated  
for the prompt and effective  
co-operation in this work of find-  
ing a substantial basis for Greater  
Santa Ana planning. Continued  
co-operation is the power that will  
enable your Chamber of Com-  
merce to go forward and exhaust  
every natural advantage and op-  
portunity toward realizing a met-  
ropolitan development toward  
which leading citizens are look-  
ing."

"We desire each and every firm  
to be represented in this survey  
and to receive the benefits from  
the mutual development plans,

## SOCIETY

### Missionary Society

Mrs. T. W. Oglesby, president of Spurgeon Memorial Missionary society, presided over a most interesting all-day session yesterday at the church where the morning hours were devoted to Bible and mission study and the afternoon to business and literary program.

Mrs. Henry Donan led the morning Bible study while Mrs. Moffett Rhodes, wife of the pastor, gave a resume of the chapter on child labor of the current study, "The Child and America's Future." At the close of the morning session a social hour was enjoyed while the members lingered over an appetizing dinner to which each had contributed a surprise dish.

Mexico offered a fruitful field for the afternoon study features and papers pertaining to the subject, "The Illumined Christ in Mexico" were read by Mrs. C. M. Mozley and Mrs. W. A. Obarr. The missionary bulletin was presented by Mrs. George M. Wright as a regular feature of the meetings and the different items were discussed by the members.

### FIRST PRESBYTERIAN

Members of the Missionary society of the First Presbyterian church devoted the afternoon meeting of yesterday principally to business affairs. Interesting and encouraging annual reports were made by secretaries of the various organizations in the society.

Special interest was centered in the reports of the younger people: Mrs. Harry Lewis telling of the work done by the three Christian Endeavor societies; Miss Bobbie Jones of the Stella Daniel society; Mrs. C. F. Smith of the Grace Rowley Circle; and Miss Preble Drake of the Light Bearers.

Eleven delegates were chosen for the annual Presbytery to be held next month in Los Angeles.

Miss M. Ida Mitchell, chairman of the nominating committee presented the following names for officers for the coming year, all of whom served so faithfully during the past year: President, Mrs. H. A. Allen; first vice president, Mrs. C. B. Buxton; second vice-president, Mrs. A. M. McDermott, recording secretary, Mrs. J. R. Goodwin; corresponding secretary, Mrs. P. R. Reynolds; treasurer, Mrs. E. B. Smith; secretary of literature, Mrs. W. E. Ward; advisory board elected was Mrs. W. E. Roberts, Mrs. E. P. Stafford and Mrs. D. A. Bear. Mrs. Whiting was elected honorary member of the society, in recognition of her work in the China mission field for forty years.

Devotionals were in charge of Mrs. Victor Montgomery, who brought a helpful lesson on "Faith," using as her illustrations the two great apostles of faith, Abraham of the Old Testament, and St. Paul of the New Testament. Her plea was to all believers to get back to the true fundamentals of religion. A short time was devoted to the home and foreign missionary topics, The American Indians, and Korea. Mrs. L. D. Mercereau spoke on the former subject, and Mrs. J. Moore on the latter.

Mrs. J. M. McKean read interesting extracts from recent letters written by the Rev. Welton, so well known here, but who is now doing missionary work in Korea.

### Relief Corps

Members of Sedgwick Post G. A. R. and W. R. C., are planning to go to Orange tomorrow afternoon to attend the tree-planting exercises in the plaza which are being sponsored by the Orange W. R. C. to honor the old veterans.

Preceding the tree planting, members of the Orange G. A. R. will be entertained at noon-day dinner. It was first announced that the local veterans and W. R. C. members were to be entertained as well, but Mrs. Kate Sutton, president of the Sedgwick W. R. C. today announced that the impression was a mistaken one as the Orange corps could not accommodate so many.

Sedgwick corps is anticipating the patriotic program to be given at the high school auditorium next Tuesday night at 8 o'clock when Camp and auxiliary, U. S. W. V. will sponsor the affair honoring McKinley, Lincoln and Washington. Invitations have been extended all patriotic societies.

### S. A. Women's Club

Mrs. P. L. Tople will entertain the members of the Santa Ana Woman's club at her home, 330 West Washington street, next Tuesday afternoon, February 19 at 2:30 o'clock.

## BOYS' SHIRTS LEAD MOTHERS TO DISCOVERY

It takes 2500 blouses to make it possible for her mother to buy one blouse for her boy and get what she wants. At least, this is the figure given out by Walter Vandermost of Vandermost & Son, local clothiers.

"We must carry a stock of 2500 blouses and shirts for boys to be certain that any mother who comes into the store can find what she wants," said Vandermost. "Long ago we solved the problem of concentrating upon one good line, the Kaynee blouses, which we buy direct from the factory, paying no middlemen's profits, and since this is undoubtedly the most complete line of boys' apparel made, we can not only give the satisfaction that a large choice bestows but practice greater economy because of the specialization on one line. Kaynee blouses stand every test, the colors are guaranteed, the collars look well and the neck actually fits, so that it is a pleasure to the merchant as well to keep a large stock that moves readily."

### Book Review

The Book Review club at their regular meeting Tuesday evening heard a most delightful review of "The Rover" given by Miss Mary L. Harris. This was the first book of fiction to be reviewed during the year as there have been four noteworthy novels published during the past months.

Miss Harris preceded her review of "The Rover" by a sketch of the life of the author, Joseph Conrad who was born in the Ukraine in 1857 and came from an old and illustrious Polish family. His father, a scholar, poet and critic, was exiled for his political views and the death of both father and mother left the boy in the care of an uncle.

Conrad was educated by a tutor and prepared for the university but decided to follow his one great desire and go to sea. Although a Pole and familiar with the French language he chose the British navy and at seventeen became a sailor. For twenty years he followed the sea, won his command and became a British subject.

At the age of thirty-eight Conrad was invalided to England and shortly afterward submitted his first manuscript to a publisher. His stories are of the sea—the picturesque, sea-coast, and all ways the sea as a mighty force against which man measures his strength. In all of his books, however, man is the main interest.

Miss Harris told, in a most interesting way, the story of "The Rover" a tale of the Napoleonic era full of adventure and daring. She considers it Conrad's best in many respects as it is more coherent, has chronological order and more incident, making it more readable than some of the earlier works. In "The Rover" the character of the man about whom the story is told, lifts the book above the depression of so much tragedy. Conrad has brought in generosity, loyalty, devotion of soul and has portrayed them with the skill of a master craftsman.

### Men's Club

Two hundred men and women were present Tuesday evening at the annual ladies' night meeting of the Men's Brotherhood of the First Baptist church.

Addresses were made by the Hon. J. H. Schively, of San Francisco, secretary of the Insurance Federation of California, and E. D. Verink, secretary of the Y. M. C. A. at Kirin, China. Speaking on Americanism, the former recited the war history of the United States and urged that the American flag be broadened to include the world.

Verink discussed the development of the play spirit in China and declared that the business ethics of America could best be made effective in China by education of the children of that nation.

One of the pleasing features of the program, which was appropriate to the Valentine season, was the "family" album, presented in living pictures, under the direction of Mrs. W. Frank Harris and J. P. Williams. Participating in this feature were Mr. and Mrs. W. W. Crozier, Mr. and Mrs. J. Wiley Harris, Mrs. M. Phillips, Miss Mayme Havens, S. R. Crane, W. Frank Harris, Miss Grace Roberts, Mrs. H. H. Reeves and A. F. Rowe.

Vocal numbers were given by A. W. Branch, accompanied by Mrs. Harry Brackett, and Mrs. J. P. Williams, accompanied by Miss Havens.

Mrs. Bertha Harrison, president of the Women's Society responded to the address of welcome to the women extended by E. C. Rundstrom, president of the brotherhood.

### Capistrano Y. L. I.

Capistrano institute, Y. L. I., held a most interesting meeting on Tuesday evening last at Knights of Columbus hall.

Rev. Father St. John O'Sullivan, pastor at the mission San Juan Capistrano, from which the institute takes its name, was present and the members heard with deep pleasure that he had been appointed by the Right Rev. Bishop John J. Cantwell as chaplain for the institute. The latter has been organized for more than a year, but the bishop had never appointed the officer.

Father O'Sullivan was given an ovation when he arose to speak. He urged the members to keep in mind always one thought which is important in the work of the Y. L. I.—the upbuilding of Christian womanhood.

Four candidates were inducted into membership, and it was urged that enough new members be secured so that the membership roll will warrant the election of new delegates to this year's grand institute to be held in Sacramento. Eleven more members are necessary.

Several of the girls signified their intention to attend the vaudeville entertainment and dance to be given next Tuesday evening by Conaty Council, Y. M. I. Joe Davis having been given audience in order to invite the members and tell of the plans for the evening.

Following Tuesday's meeting, a social hour and cooling refreshment was enjoyed, the latter furnished by the thoughtfulness of Mrs. J. W. Markel.

### Cooked Food Sale

Salads, meat loaves, cakes, cookies and all manner of delectable cooked foods will be offered at a sale which girls of the Rainbow circle of the Christian church will present Saturday morning at Hill's market, corner of Fourth street and Broadway.

Articles will be ready to display at 10 a. m. and the sale will continue all day or until everything is disposed of.

## DISTINCT 'HIT' MARKS DEBUT OF BAND

Santa Ana's municipal band today rested on the laurels it had gained through hearty co-operation, hours of hard work and splendid direction.

The recently-formed organization, consisting of approximately fifty local musicians, made a distinct "hit" when it made its first appearance in public as a feature of the program at the Yost theater here last night.

The band, under the direction of D. C. Cianfoni, and playing on the Yost stage, offered a number of well-known numbers, all of which proved popular with the large audience.

"The Lions," a number written by Cianfoni, was the feature of the entertainment. This piece has been dedicated by the composer to the Santa Ana Lions' club. Many members of the local club as well as a number of representatives of the Pomona Lions club were present for the occasion. Emery Yunt, governor of the fourth district of Lions clubs, who was to have been among the visitors, was unable to come to Santa Ana.

The local band will repeat its program at the Yost theater tomorrow night, appearing at two shows. Tonight the musicians will play at the meeting of Santa Ana post No. 131, American Legion.

Among the numbers that were received with special applause last night were the overture, "Light Cavalry" and the quartette from "Rigoletto," in which Soloists Ramirez, Cianfoni, Taylor and Huffman were featured.

## CHORAL UNION TO SHAPE NEW PLANS

Members of the Orange County Choral union were interested today when it was announced that this organization would meet at 7:45 p. m. tomorrow in the Frances E. Willard junior high school on North Main street, where plans for its next production of the present season will be discussed.

Tomorrow evening, also, Ellis Rhodes, director of the choral union, will announce on what day next week try-outs will be held in connection with staging the work to be decided upon.

It was emphasized that vocalists who desire to become members of the organization are especially welcome to attend tomorrow night's meeting.

Radio Supplies at Gerwings.

**"I Eat Very Little Bread"**

You hear it often. Usually the person who says it lacks vitality and endurance.

Good Bread is an essential food. Not all breads, however, are real foods. Some fill, but do not nourish.

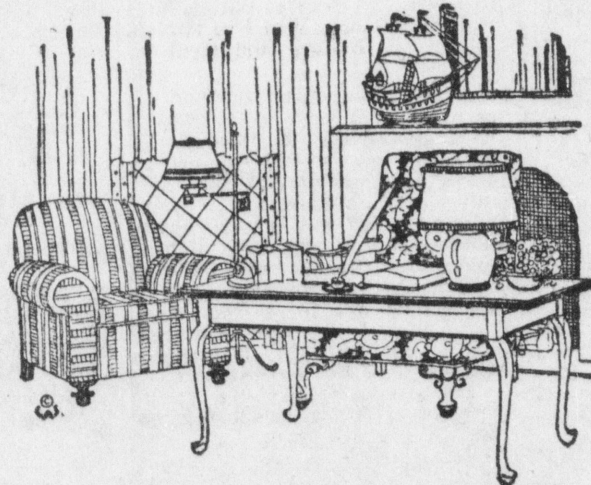

It takes the finest ingredients; each scientifically tested, all carefully blended and baked—to make bread that actually nourishes.

HOLSUM Bread is real food—the cheapest food you can buy. In White, Graham, Bran, Sandwich, Whole Wheat—each slice from any of these HOLSUM loaves contains in fullest measure the elements that build good health.

For White - Bran - Graham Whole Wheat - Tea Biscuit

**Betrothals Weddings Receptions****Life of Service In Mission Field Is Described**

This week Mrs. S. F. Leonard of 2215 North Broadway has as a guest, one of her old Minnesota friends, Miss Kate E. Ainslie. Since Minnesota days, Mrs. Leonard has followed with great interest this friend in her varied experiences. For seven years she was engaged in educational work in Turkey where her parents before her had been missionaries. Then she came home to California for her furlough. As war conditions prevented her return to Turkey at that time, she took a teaching position in a government school in Japan. She is now an enthusiastic and warm admirer of the Japanese who were so friendly and helpful to her, alone in a strange land. While there an urgent call came for her to help in a school for the blind in Canton, China. There she learned to sing (in true Chinese fashion) her conversations and directions to the teachers and pupils who are learning to live a life of useful activity and independence instead of one of helplessness.

As soon as passports for Turkey were issued Miss Ainslie felt she must leave China and the interesting work she was engaged in, to go to Turkey to relieve those who had been forced to overstay their furloughs and continue their work all the years of the war. Around India to Port Said, Egypt by boat and from there by military train (permission to travel on which was graciously granted her by the British), she went to Maresch, Turkey. There war soon broke out and the destruction of all the best homes and the largest part of the famous bazaars or shops. Of course that made necessary a great deal of relief, orphanage and other work in which the Near East Relief took a leading part. About a year ago Miss Ainslie returned to California for rest. She is staying with her parents in Maywood, Los Angeles, from where she motored down with Mr. Charles Gammel and his daughter Edna for a few days visit with friends in this vicinity.

**Birthday Surprise Is Offered In Gift of Fine Radio Set**

His sixty-third birthday will stand out as a true red-letter day for George Spencer of 113 Halladay street, for yesterday when the anniversary rolled around, it brought a number of happy affairs in its train.

Planning to surprise her husband, Mrs. Spencer arranged a delicious dinner with chicken as the piece de resistance, and asked Mr. and Mrs. Frank Porter and Son "Gene, Mr. and Mrs. Floyd Spencer and little son Bobby and Mrs. Elizabeth Fox to join them.

The table was lovely with decorations of violets and smilax. As the dinner drew to a close, the honoree was told to prepare to receive his birthday cake and when Mrs. Spencer brought in the delicious affair, it was to the accompaniment of a musical concert via radio over the new Atwater-Kent set which was her surprise birthday gift to Mr. Spencer. The set had been installed without his knowledge and all was in readiness for "listening in" as the dinner reached its final course.

Master Bobby Spencer took great delight in blowing out the candles for his grandfather and after the ceremony of cutting the cake had been accomplished all enjoyed the excellent programs broadcasted from Los Angeles.

**Ladies' Canton Club**

Nineteen members of the Lady Cantons and eight guests were very pleasantly entertained yesterday at Anaheim by Mrs. C. J. Marzhan, at the home of her mother, Mrs. Frank Gates, 220 Claudina street.

The home was gay with hearts in honor of the season and during the afternoon Miss Emma Hutton pleased with a reading and Mrs. Nelson of Fullerton rendered a delightful vocal solo.

Social chat and needlework whirled away the time, until late afternoon when Mrs. Marzhan served appetizing refreshments.

**Los Angeles Wedding Of Much Interest To Local Friends**

A wedding of more than passing interest was that of Miss Margaret Frances Scharf and Mr. Gideon W. Fisher, at the home of the bride's parents, Mr. and Mrs. Samuel Scharf, 930 Park View street, Los Angeles, Saturday afternoon, February 9 at 5:30 o'clock.

The Scharf home was a bower of beauty; festoons of pink carnations and smilax separated the hallway from the spacious reception room where banks of pink sweet peas and smilax adorned the mantel in front of which an arch of white carnations and green foliage surmounted the beautiful white wedding bell. The aisle for the wedding party was formed by rows of baskets filled with white carnations joined by loops of white ribbon bearing sprays of lily of the valley.

Preceding the ceremony music was rendered by an accomplished harpist whose melodies charmingly blended with the fragrance and beauty of the occasion.

Kyle Scharf, brother of the bride, and Mr. Fisher led the way to the wedding bell followed by the Rev. Mr. Breble, pastor of the Westlake Presbyterian church who had been chosen to tie the nuptial knot. Tiny little Margaret May Scharf, niece of the bride, all the years of the war. Around India to Port Said, Egypt by boat and from there by military train (permission to travel on which was graciously granted her by the British), she went to Maresch, Turkey. There war soon broke out and the destruction of all the best homes and the largest part of the famous bazaars or shops. Of course that made necessary a great deal of relief, orphanage and other work in which the Near East Relief took a leading part. About a year ago Miss Ainslie returned to California for rest. She is staying with her parents in Maywood, Los Angeles, from where she motored down with Mr. Charles Gammel and his daughter Edna for a few days visit with friends in this vicinity.

Her jet black hair fell about her forehead in striking contrast to the dainty tulle cap and veil which fell in a graceful train beyond the length of the bride's gown. She wore a bouquet of brides roses, lilies of the valley, and maidenhair fern, and wore as "something old" the pearl necklace of Mrs. W. S. Kellogg of this city, at whose wedding she had been honor maid.

After the impressive ceremony the friends numbering about fifty gathered about the happy couple to offer congratulations, after which the great bride's cake was cut by the bride who led the tables beautifully decorated with pink candles, carnations and cupid's awaited them. Guests were served a buffet supper of chicken patties, fruit salad, sandwiches, salted almonds and coffee, ice cream, and a symbolic shower was served with candies and slices of the bride's cake, followed by dainty boxes bearing wedding cake to "dream over." The beautiful harp music at the supper hour was interrupted by a flash of darkness. When light was restored it was discovered that bride and groom had fled to parts unknown. After a two weeks' honeymoon, they will return to Los Angeles for a brief stay before making the journey to Iowa where Mr. Fisher has a farm upon which they will remain a year, which they hope to return to California to make their home.

Santa Ana guests were Mrs. E. P. Battey, her daughters the Misses Helen and Frances Battey, Miss Margaret Gaebel, Miss Eva McNeil, Mr. W. S. Kellogg and Mrs. Iva Webber.

Members of Ebells second section Household Economics have asked all Ebells members and friends to reserve Thursday afternoon, February 28 for the bridge party which they are sponsoring at the home of Mrs. Leonard G. Swales, 2115 North Broadway.

Arrangements may be made whereby a hostess wishing to entertain a guest group, may reserve a table or several tables, while guests "solo" or "a deux" will be welcomed. A cover charge or a table charge will be made. Mrs. Bruce Monroe has charge of all arrangements and will gladly make reservations for those who wish all proceeds from the afternoon will go to the Ebells building fund.

**Jr. College Y. W. C. A. Holds Impressive Installation**

An installation service which will never be forgotten by the girls who saw it, was the one carried out last night by the Junior College Y. W. C. A. in the hut on the high school campus.

The candle light service which is always effective was altered somewhat from its usual form by the president, Miss Hazel Kinsel, making a longer program than usual and an even more beautiful one.

Retiring cabinet members stood in a semi-circle holding lighted candles, while Miss Kinsel, last semester's president, outlined the work of the past term and spoke of the gratitude felt for the old officers. New cabinet members then lighted their candles at those held by the outgoing officers, thus symbolizing the receiving of the light which is to guide them in their work.

Miss Kinsel, who is also president for the coming term, spoke beautifully of the vision she had for the association, its friendship, its service, its ideals and its inspiration.

Miss Jennie Lasby, a constant and true friend and advisor of the association girls, gave an impressive talk on ideals and the personal attitude which makes for happiness. She was followed by Louane Leech, who read Frank Dyer's "The Lost Word" and then by Miss Thelma Van Nest in vocal solo, and the new vice-president, Miss Ruth Goodwin who made a brief acceptance for the new officers.

Refreshments were served by Miss Frances Battey, social chairman, assisted by members of her committee.

New officers installed were president, Hazel Kinsel; vice-president, Ruth Goodwin; secretary, Katharine Devault; department heads: finance, Lois Hallman; house and grounds, Ida Griset; discussion group, Leah Crane; social service, Katharine McMullen; social, Frances Battey; athletics, Addie Steele; undergraduate representative, Persiana Deimling.

Faculty members present were, Miss Lulu B. Finley, Miss Jennie B. Lasby and Miss Isabel Anderson, directing secretary of the association.

Students at Santa Ana high school enjoyed a musical treat Tuesday afternoon and again today when they were excused from classes at school to go to Los Angeles for the San Carlos Opera company's performances.

Tuesday afternoon there were seventy-five members of the Glee club who heard "Madame Butterfly" their interest in the beautiful opera having been heightened by the resume given the previous day by their director, Miss Margaret Wickes, head of the music department of the high school. Accompanying the young people were Miss Wickes, Lena Moon Morgan, Mrs. Edward Hummel and T. H. Glenn.

Yesterday afternoon at the Atheneum club Miss Wickes outlined the story of "Lucia di Lammermoor" that the half hundred pupils who were to hear the opera sung this afternoon in Los Angeles, might be conversant with the theme.

Entre Nous Club  
Mrs. Harry M. Smith will entertain the members of the Entre Nous card club at her home, 1420 North Broadway, Wednesday afternoon, February 20, at 2 o'clock.

**San Diego Honeymoon With Steamer Trip For Newly-Weds**

Quietly impressive was the nuptial ceremony which today united one of Santa Ana's popular girls to a son of the old south when Miss Dortha Clem, daughter of Mr. and Mrs. Cary E. Clem of 1068 West Third street, became the bride of Mr. Marcus Lassiter, son of Mr. and Mrs. W. F. Lassiter of Hartford, Alabama.

The wedding vows were spoken before the Rev. F. T. Porter, pastor of the First Christian church, and gathered around the happy young people were the immediate members of the bride's family, Mr. and Mrs. Cary Clem, Mr. and Mrs. Charles C. Schultz of Torrance (brother-in-law and sister) Kenneth Clem who came from his dental studies at University of Southern California and Elmer Clem of the home. One other brother, Virgil Clem of Chicago, was, like the family of Mr. Lassiter, prevented by the distance from attending.

Miss Clem was charmingly gowned in beige georgette, headed in white and her smart little hat, her gloves and footwear all corresponded in color. She wore a corsage of white roses and maidenhair fern.

Following the impressive ring ceremony the party left the church for St. Ann's Inn where a wedding luncheon was served on a table brilliantly adorned with spring blossoms. A delightful feature was the bride's cake which had been baked and presented to the bride by Mrs. Scott Wiles.

Mr. and Mrs. Lassiter left early this afternoon for a steamer trip to San Diego where the honeymoon will be spent. Upon their return they will welcome their host of friends at 220 North Garvey street.

Mrs. Lassiter as Miss Clem was a popular Santa Ana high school girl and following her graduation in 1920 has been employed with the Abstract and Title Guaranty company. Soon after coming to Mr. Lassiter identified himself with the same company and the companionship and friendship of the two young people culminated in today's pretty wedding.

**P. E. O. Club**

Miss Gertrude Montgomery will entertain members of Chapter A. B. of the P. E. O. club at her home, 1418 North Main street, Monday afternoon, February 18 at 2:30 o'clock. Important business matters have arisen for consideration and a full attendance is urged.

**Friday Afternoon Club**

An important business meeting of the Friday Afternoon club of Costa Mesa is scheduled for tomorrow at 2:30 p. m. at the clubhouse on the Mesa. All members are expected to be present.

**WILCOX**

—OPTOMETRIST

Entre Nous Club  
Mrs. Harry M. Smith will entertain the members of the Entre Nous card club at her home, 1420 North Broadway, Wednesday afternoon, February 20, at 2 o'clock.

Members of Ebells second section Household Economics have asked all Ebells members and friends to reserve Thursday afternoon, February 28 for the bridge party which they are sponsoring at the home of Mrs. Leonard G. Swales, 2115 North Broadway.

Arrangements may be made whereby a hostess wishing to entertain a guest group, may reserve a table or several tables, while guests "solo" or "a deux" will be welcomed. A cover charge or a table charge will be made. Mrs. Bruce Monroe has charge of all arrangements and will gladly make reservations for those who wish all proceeds from the afternoon will go to the Ebells building fund.

**News Notes of Interest To Women****Japanese Motif Used In Merry Party For Married Folk**

Reminiscent of Japan and her flower festivals was a delightful party with which Dr. and Mrs. R. A. Burkett last night entertained the young married folk of the First Christian church, at their cozy South Ross street home.

Bidden to don Japanese costume, the guests added to the colorful effect of the party with their lovely representations of Japanese folk. Mrs. Burkett had used festoons of lovely purple wisteria combined with peach blossoms which transformed the pretty home into a floral bower.

A few matters of business were quickly disposed of after which appropriate games were introduced. Dr. Burkett proved himself quite a wizard and performed a number of feats of magic with great skill. Nor was the valentine season ignored, for a heart hunt offered entertainment and yielded a large heart to the lucky finder of the greatest number of small ones.

Supper partners were gained by matching cut up pictures and buffet refreshments were served with Mrs. William Rash pouring coffee and the hostess, Mrs. Burkett presiding at the table where a delicious pudding in white, pink and orange colors with pineapple sauce was served with cake and salted nuts.

Enjoying the happily planned affair were Messrs. and Mesdames William Rash, John Mills, George M. Taylor, Marshall Secret, "Monty" Montgomery, Howard Fellows, George Klersey of Tustin, Chauncey Bond, Colonel Parsons, Ross Martin, Will Gerrard, the hosts, Dr. and Mrs. Burkett and Miss Dortha Clem and Mr. Marcus Lassiter who were so nearly eligible to the ranks of the young married set that they were included, as their wedding was to be an event of today (Thursday).

Mrs. Lassiter as Miss Clem was a popular Santa Ana high school girl and following her graduation in 1920 has been employed with the Abstract and Title Guaranty company. Soon after coming to Mr. Lassiter identified himself with the same company and the companionship and friendship of the two young people culminated in today's pretty wedding.

WALL ST. JOURNAL  
FINANCIAL REVIEW

NEW YORK, Feb. 14.—Today's session furnished an important test as to whether the reaction of the market was going further.

The outcome was altogether satisfactory from a bullish standpoint. "Shorts" selling soon discovered that stocks were not coming out in sufficient quantity for profitable covering purposes.

This realization caused them to stop bidding for the retirement of the contracts after a wave of selling had resulted in establishing new lows on the week's reaction.

Prices were generally higher, with a few exceptions.

Stocks: 100 to 110; 110 to 120; 120 to 130; 130 to 140; 140 to 150; 150 to 160; 160 to 170; 170 to 180; 180 to 190; 190 to 200; 200 to 210; 210 to 220; 220 to 230; 230 to 240; 240 to 250; 250 to 260; 260 to 270; 270 to 280; 280 to 290; 290 to 300; 300 to 310; 310 to 320; 320 to 330; 330 to 340; 340 to 350; 350 to 360; 360 to 370; 370 to 380; 380 to 390; 390 to 400; 400 to 410; 410 to 420; 420 to 430; per Cwt.

Special Prices in Quantities

Rome Beauty and Winesap Apples,  
\$1.50 per box

UNDER NEW MANAGEMENT

## Berlin Palace Now Public Dining Place

BERLIN, Feb. 14.—Mrs. Fritz Kreisler, the American wife of the Austrian violinist, and a number of other Austrian women have worked wonders in the kitchen of the old imperial palace overlooking the spruce in Berlin. This kitchen, where the food of the Hohenzollerns was prepared for many generations, has been converted into a cheery dining room where middle-class Berliners may buy a midday meal at small cost. Professors, actors, doctors, lawyers, scientists and writers now sit in the renovated rooms where Hohenzollerns used to give instructions about their food.

## See Ill in Second Strawberry Crop

LEIPZIG, Feb. 14.—Superstitious persons living in the town of Lindenthal are much exercised over the fact that strawberry bushes in that area have just produced a second crop of berries. This is almost as bad an omen as the second bloom of lilacs in the same year. In the opinion of old inhabitants who have never known a second crop of strawberries to come without bringing great misfortune with them.

## Vast Sums Lost in Oil Field Fires

WASHINGTON, Feb. 14.—Fire is the greatest enemy of the oil industry in the United States. A bureau of mines survey covering only the more extensive fires in a ten-year period, indicates total losses of about 13,000,000 barrels of oil and more than five billion cubic feet of natural gas. An aggregate loss of about \$14,000,000 was shown during 1918, 1919 and 1920 through fires in storage tanks, pipe line systems and in refineries.

While the survey showed that lightning probably causes the majority of fires, carelessness and lack of suitable preventative measures account for many conflagrations.

## Stage and Screen

Richard Barthelmess as he appears at different times in "Twenty-One," his latest picture now showing at the Yost theater.

### TONIGHT'S ATTRACTIONS.

WEST END — "The Heritage of the Desert," with Bebe Daniels and Ernest Torrence. (Closing).

TEMPLE — "Black Oxen," with Conway Tearle and Corinne Griffith. (Closing).

YOST — Vaudeville and "Twenty-One," with Richard Barthelmess. WALKER — "The Man Life Passed By," with Percy Marmont. (Closing).

PRINCESS — "Laughing Bill Hyde," with Will Rogers.

### JUMPS THROUGH GLASS IN MAKING PICTURE

"Do you think you can jump through this window, Dick?" John S. Robertson asked Richard Barthelmess one day during the production of "Twenty-One," now showing at the Yost. The director pointed to the pane of glass which fitted neatly into the framework of a window of a garage erected in the Inspiration Studio at Fort Lee.

"Wait until I see whether I paid my accident insurance," Dick suggested.

"The glass is the lightest weight we could get," Robertson added.

"Well, I'll take a chance," Dick replied.

With a safety first kit ready, Dick clambered on a packing box, leaped off and went feet first through the window pane. He emerged with a cut on his thigh, his trouser leg having been ripped off by the shattered fragment.

After he was patched up, Dick was ready for the next scene. It was all in a day's work during the production of "Twenty-One."

"Stack O'Lee Blues"

A fox-trot whose blue waves of harmony sweep you on the dance floor. Played by Frank Westphal and His Orchestra on Columbia Record 32 D.

Records

## Killed By Auto of His Close Friend

NEWARK, N. J., Feb. 14.—Charles Stasse of South Orange, circulation manager of the Newark Evening News, died from injuries received when he was struck by a motorcar driven by Harry A. Auth, business manager of the Star-Eagle. The two newspapermen had been intimate friends for a number of years.

After he was knocked to the pavement Mr. Stasse, apparently injured but slightly, joked with the Star-Eagle manager about the accident. He was taken home by Mr. Auth. Mr. Auth was arraigned on a technical charge of manslaughter.

fort to pretend to be something she was not.

### WM. RUSSELL'S LATEST AT WEST END TOMORROW

In a brass bound box a lovely girl kept the secret of her invention, an invisible deep sea light, which was sought by all other governments. The agents of these governments wanted the secret so badly that armed men threatened her life at every turn. Both she and the secret would surely have been lost but for the aid of a brilliant author who had gone to the country for "rest, peace and quiet."

The fills the author thought he had and the frayed condition of his nerves were soon forgotten and he later found the doctor was right who said—"What you really need is a wife."

William Russell, popular star, plays the part of the author, with Carmel Myers as the girl, in "Good-by, Girls," which will be seen at the West End theater tomorrow.

### "THE MAN LIFE PASSED BY" CLOSING TONIGHT

Closing a three day engagement at the Walker theater tonight "The Man Life Passed By," Victor Schertzinger's new production, has proven an intriguing photoplay bound to please every fan. It tells a dramatic story, and it is rich in elements of popular appeal. It seeks only to be entertaining and succeeds admirably.

An excellent cast that has Percy Marmont, Jane and Eva Novak in sister roles, Cullen Landis, Lydia Knott and Hobart Bosworth, make very real this story of a man who finally rises triumphant, through the help of the daughter of his enemy, over misfortunes that nearly drowned him. The absorbing action, interspersed with fights and thrills, has many gripping dramatic scenes.

### Property Owners In Bristol Street Sanitary District

Time for payment of assessments extended to Saturday, February 16. Everything west of Flower street is included in the district. B. R. FORD.

OLD TIME IS A LIAR  
WE'RE 21 TONIGHT!  
Turn back the clock for an evening. Live over again the joyous adventures of youth, its romance, its love, its buoyant joyousness. You'll forget your age with the lilting spirit of youth in this picture. "Our Dick" in a modern Prince Charming role.

Get a small quantity at any pharmacy or toilet goods counter, simply asking for Howard's Butter-milk Cream, and massage it daily into the face, neck, arms and hands. The directions are simple and its cost so little that any girl or woman can afford it. Your complexion must quickly show a decided improvement or your dealer is authorized to return your money without question should you be dissatisfied.

No matter whether you are troubled with wrinkles, hard little lines around the mouth and eyes, coarse, sallow, faded looking skin, or simply roughness and redness caused by wind and sun, you will find that all these trials quickly disappear with the use of this old-fashioned beauty recipe brought up to date.

Howard's Butter-milk Cream is only sold on a positive guarantee of satisfaction or money back. All druggists can supply you.—Adv.

## DOES THIS INTEREST YOU?

Milk is, probably, our most important and valuable food. To be safe and effective in properly nourishing the body, particularly of infants and invalids, it must be pure and free from injurious germ life.

WE BELIEVE that good, rich, clean milk as drawn from healthy, contented cows cannot be improved on.

WE BELIEVE that it is better and safer in every way to KEEP FOREIGN MATTER AND INJURIOUS GERMS OUT OF AN ORIGINALLY PURE product than to try to eliminate these undesirable and dangerous elements once they have been allowed to enter. Acting on these beliefs, we have a selected herd of clean, healthy cows. We exercise the strictest care to keep our milk clean and pure.

We are located four miles outside of the city limits. We have our own deep well water, clean and pure. NO CITY WATER HAS EVER, AT ANY TIME, BEEN USED on the place.

To relieve our customers of any source of anxiety, we had the County Board of Health test the whole family and every one in any way connected with the handling of the milk or utensils, for typhoid. All were free.

Refer to the Register of Oct. 21, 1923, and you will see that the state officials gave our milk the highest rating of any milk produced in Orange County.

Can you do better than to use a clean product, kept clean and pure by careful handling?

#### KANGAROO SHOES FOR MEN

Large new shipment of those fine Goodyear welt genuine Australian Kangaroo shoes for men at \$6.00 a pair, in 3 different lasts. Call soon before your size is gone; they are moving fast.

## POLY THESPIANS PREPARING FOR 'SEVENTEEN'

The dozens or more young thespians from the senior class of the high school here were on tip-toe today, anticipating the dress rehearsal they will hold tonight, of "the senior play," exciting event of the school year, which on this occasion is Booth Tarkington's delightful comedy of youth's tragedies, "Seventeen."

The play will be given at the high school auditorium tomorrow afternoon and evening. "Tonight's will be perhaps more than an ordinary dress rehearsal," declared Director Ernest Crozier Phillips, "because of the numerous changes on scenery necessitated. We will be working with excellent scenery, made by the high school class in stagecraft, under the direction of Miss Hazel Bemis. This group has been especially successful in the preparation of 'profile' scenery and in the construction of a 'set house'."

"The play is far and away one of the cleverest and most delightful I have ever known. Persons who plan to attend the play tomorrow need have no fear of being depressed by its 'weepy' moments, for the tragedies of youth which form the basis of the comedy, are not, after all, so very serious."

"At tomorrow's matinee, which will begin at 2:30 p. m., a very nominal admission price will be asked of the grammar and junior high school pupils of the city, to whom a special invitation is extended. Adults may also attend the matinee, of course. Tomorrow evening's performance will be open to everyone."

## Hubby Can Drink; Must Stop Arguing

NEW YORK, Feb. 14.—When Michael Warnock, 70, of Yonkers was brought before Judge Rosenwasser in city court, on a charge of disorderly conduct, made by his wife, Mrs. Mary Warnock, she said he drinks liquor and keeps her awake.

"Will you promise to stop drinking?" Judge Rosenwasser asked the man, who was in court for the first time in his life.

Mrs. Warnock interposed: "He needn't stop drinking, your honor. I don't care how many drinks he takes, if he'll stop arguing and debating after he takes them."

## 'Morality' Play Featuring Deity Given in Church

LONDON, Feb. 12.—A morality play in which the Deity is impersonated by an actor robed in gold and wearing a gorgeous crown was presented last evening in St. Edward's Church, Holbeck, suburb of Leeds, before an audience of clergymen and newspaper reporters preparatory to its public production next week.

The play is an English version of Hugo von Hofmannstahl's "The Great World Theater," the idea of which is taken from one of the Corpus Christi plays of the Spanish dramatist Calderon.

The production at Holbeck was under the direction of Ellen Terry's daughter, Edith Craig. It was given with the approval and the blessing of the Bishop of the diocese and other clergy and proved deeply impressive. The proposal to present it in the church had been objected to in some quarters, but it is believed that the reverent and profoundly religious atmosphere of last night's performance will remove all hostility.

Opening in darkness, the gradual illumination of the altar reveals God standing there, and in a short prologue He invites the World, personified by a gorgeously clad woman, to arrange a play for Him. The drama that follows forms a philosophic and symbolic judgment of life, with a commentary on the world chaos that followed the great war. The action is accompanied by solemn music and illuminated by many vari-colored lights.

This was the first occasion the play was presented since it was performed in the church of the little Austrian town of Salzburg, but it is predicted that in its present translation by Madge Pemberton it will be seen in many places in the future.

## FIRST NATIONAL POST IS GIVEN FARNSWORTH

F. E. Farnsworth, one of the best known and most successful business men of the county, today was a vice-president of the First National bank of Santa Ana, following his election to that post at a meeting of the bank directors yesterday.

For years, Farnsworth was an active vice-president of the Orange County Trust and Savings bank, from which position he retired recently, and he has been and still is associated in numerous business enterprises of the city.

Farnsworth is to be an active official of the bank. His duties will require his presence both inside and outside the bank.

## U. S. Women Pay Big Income Tax

SAN FRANCISCO, Feb. 12.—American women pay income taxes aggregating \$111,000,000 annually. Figures compiled by J. P. McLaughlin, collector of internal revenue, show that this tax is paid by 800,000 women. Of this number 39,000 were wives who made separate returns from their husbands. Their taxes amounted to \$43,500,000.

More than 100,000 women filed income tax returns as heads of families by reason of the fact that they support one or more relatives. This class paid ten millions in taxes. In addition, some 600,000 single women, including widows, divorcees and married women living apart from their husbands. The tax from this class reached \$58,000,000.

## Girls Victims of Fake Film School

SAN FRANCISCO, Feb. 12.—"Thousands of movie-struck girls have been separated from their small savings by promoters of fraudulent motion picture schools," said A. W. Hale, motion picture director. Hale has been a director since 1910 and is responsible for the success of such pictures as "The Prisoner of Zenda," "Extension Table" and the "Rock of Ages."

"Give me the absolute novice," continued Hale, "in preference to a product of one of these fake schools. Students are selected not because of their dramatic ability, but because of their pocketbooks. In most cases schools that promise jobs at the termination of a course of study have no connection with motion picture corporations at all."

More than \$300,000,000 has been realized in sales of British government war bonds. The Dominions got more than \$60,000,000 of this sum.

Berlin is suffering from a "plague" of beggars. They are jamming the railroad depots and blocking the shop doors.

## For Itching Torture

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins. Zemo Soap, 25c—Zemo Ointment, 50c—Adv.

## They Paid \$200,000,000

for Studebaker cars last year

Find out why folks did it

LAST year 145,000 people paid over \$200,000,000 for Studebaker cars.

The demand for these cars has almost trebled in three years. It has become the sensation of Motordom.

There is a new situation in the fine-car field. You should learn what it means to you.

Studebaker had to lead in this field. This concern has led in its lines for two generations. Any other place would be unfitting.

This is how we became the world's largest builders of quality cars.

\$90,000,000 assets Studebaker has \$90,000,000 of assets. Of this \$50,000,000 is invested in modern plants and equipment.

We have spent \$32,000,000 for new plants and equipment during the last five years. So they are modern and efficient. They contain 12,500 up-to-date machines.

We have \$8,000,000 in drop forge plants, \$10,000,000 more in body plants. So we build complete cars without paying other makers profits.

We spend \$500,000 yearly on an engineering staff. There are 125 skilled men employed in our department of Research and Experiment. They make 500,000 tests per year.

We employ 1,200 inspectors. Each Studebaker car must pass 30,000 inspections during manu-

Then on some steels we pay makers a 15 per cent bonus to insure exactness in them.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in America.

The Light-Six more than any competitive car within \$1,000 of its price.

We use genuine leather upholstery.

We use Chase-Mohair for the closed car upholstery. Some good upholstery would cost \$100 less.

To curb vibration, we machine all surfaces of crank shafts, as was done in Liberty Airplane Motors. Very few cars do that.

How such prices?

How can we give such extra values—scores of them—yet sell at our low prices?

Because these values brought us buyers—145,000 last year. The major extra costs are divided by enormous output.

Let us show you the extras you get, because of these matchless facilities.

## Learn Why 145,162 Bought Studebakers in 1923.

Studebakers hold the top place in the fine car field today.

In 1919, the public paid over \$80,000,000 for 39,356 Studebaker cars.

In 1920, the public paid over \$100,000,000 for 51,474 Studebaker cars, an increase of 31% over 1919.

In 1921, the public paid over \$120,000,000 for 66,643 Studebaker cars, an increase of 29% over 1920.

In 1922, the public paid over \$155,000,000 for 110,269 Studebaker cars, an increase of 66% over 1921.

In 1923, the public paid over \$201,000,000 for 145,162 Studebaker cars, an increase of 32% over 1922.

In 1924, business has opened with Studebaker as never before.

Learn why all these buyers preferred Studebakers.

facture before it leaves the factory.

Those enormous facilities enabled us to produce the utmost in a car. And we had the will to do it.

No stinted costs

We never stint on costs. Every steel used is the best steel for its purpose, regardless of the price.

## ORANGE COUNTY'S PROGRESS PANORAMA DEPICTED

### HARBOR HELD BEST ASSET SANTA ANA BOASTS

Continuous City South to  
Ocean From Fullerton,  
Is Urged As Need

Santa Ana cannot maintain its present rate of development unless more smokestacks decorate the skyline. Newport harbor is the whole answer to the question of whether or not Santa Ana is to become a metropolis.

Santa Ana, Orange, Anaheim, Fullerton and Newport Beach should all consolidate into one big Harbor City.

With the advent of payrolls and with an ocean harbor, Linn L. Shaw sees no limit to the size and greatness of Santa Ana. Shaw, a member of the firm of Shaw and Russell, realtors, is president of the Santa Ana Development company, which owns the Grand Central Market block and was chairman of the Orange county harbor commission for eight years during the initial work of developing the harbor.

He states: "There is just one thing that can easily prevent Santa Ana from becoming a real metropolis, and that is the lack of enterprise and foresight of its people. Every metropolis in the world 'just happened' or 'grew' like Tokyo.

"To be sure, a real metropolis must have something to build on.

### Building Permit Office Forced to Bigger Room

Because of the steadily-increasing demands for building permits here, it has been necessary to move the offices of the building, plumbing and electric inspectors one door east to a large corner room in the city hall, on the main floor, it was learned here today.

### New Company to Furnish Tracts Domestic Water

Announcement was made today of organization of the South Main Street Water company, inc., organized to provide domestic water for subdivisions in the south part of the city.

The company will furnish water to Chanticleer Manor, McFadden tract No. 4, Furman tract No. 1 and McFadden tract No. 5, the latter a new subdivision created just outside the city limits of Santa Ana.

### CHAIN GROCERY TO ENTER CITY IMMEDIATELY

That the Sam Seelig Grocery company is preparing to enter the field in Santa Ana with at least

### BARES GROWTH AS REFLECTED ON GAS FIRM

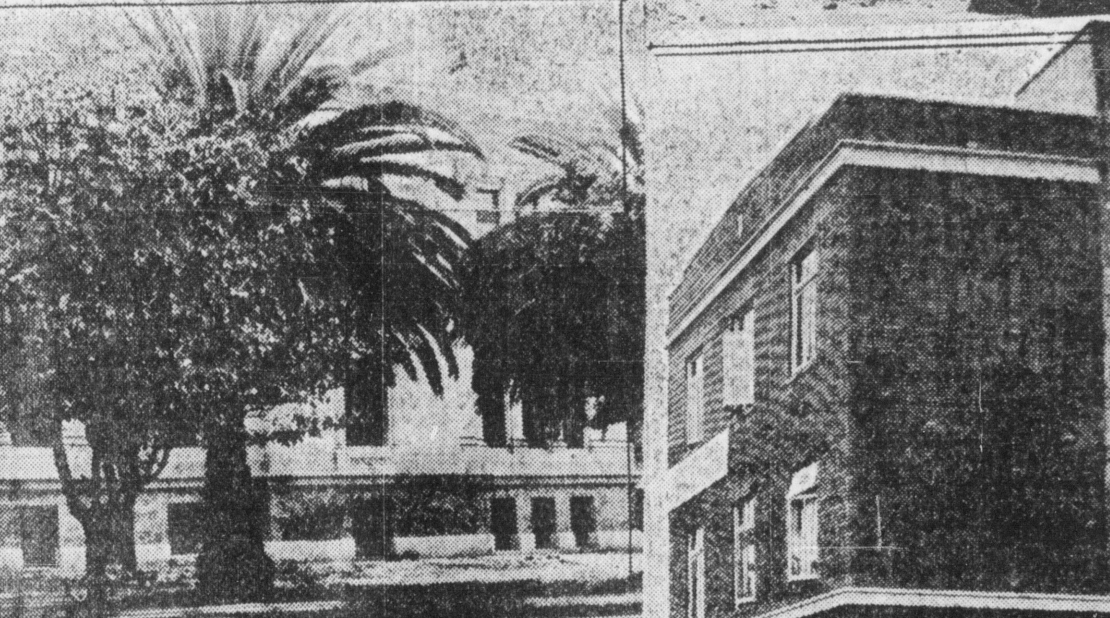

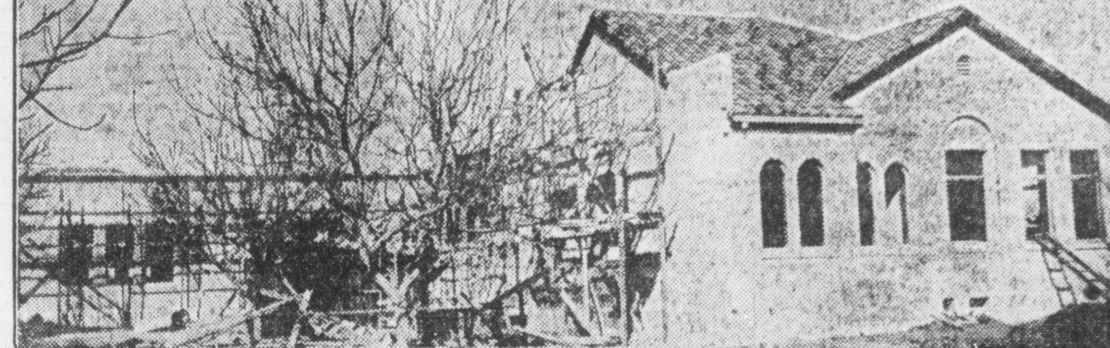

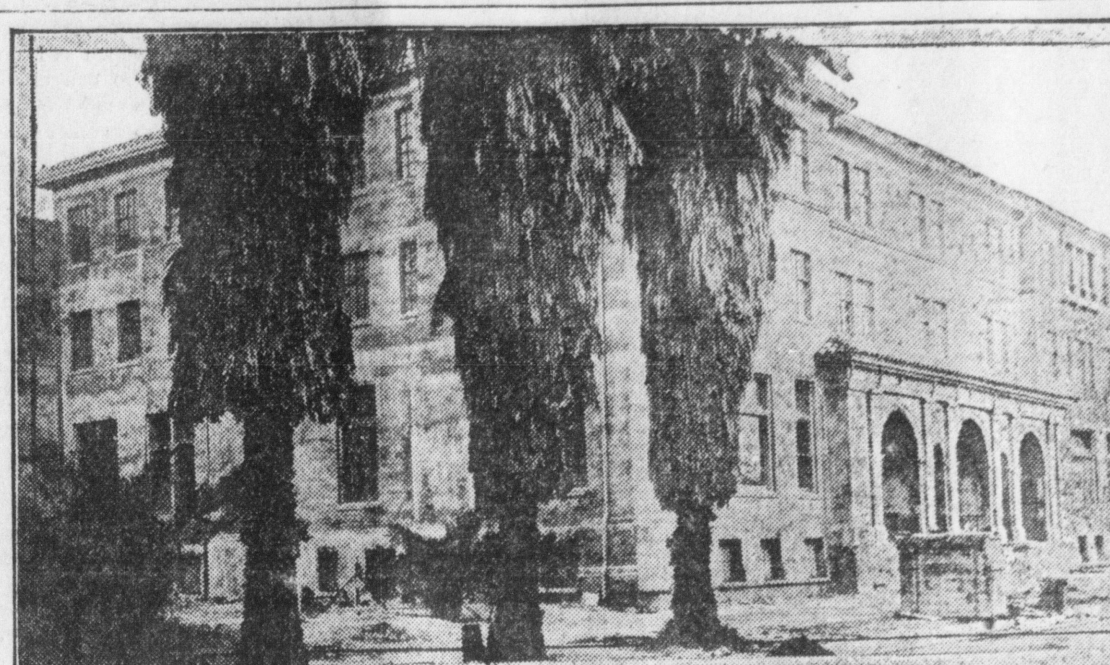

\$250,000 In Expenditures  
Planned In This County  
During Present Year

How Orange county's continued and unprecedented development places public utilities on the alert to keep up with this pace, was demonstrated here today when J. C. Hayden, district manager for the Southern Counties Gas company, stated that Orange county's ceaseless growth made it necessary for the corporation to increase its original estimate, made early last year, of \$200,000 expenditures for 1923 in the county, to the \$250,000 mark.

At the same time Hayden announced that in all probability the company would exceed the 1923 mark in carrying out its expansion program this year. A budget, which will be ready within a month, Hayden stated, will provide for an expenditure of more than \$3,000,000 in Southern counties. Last year's outlay made by the company for betterments and extensions in Southern California totaled \$2,800,000.

"Paving operations, going in tensively forward in virtually every Orange county city," Hayden

### HERE ARE SANTA ANA BUILDINGS ERECTED OR UNDER CONSTRUCTION AT \$560,000 TOTAL

Here is a group of public buildings under construction in Santa Ana or just completed, totalling \$560,000 in cost. Upper—Y. M. C. A. building, erected on the northwest corner of Church and Sycamore streets, at a cost of approximately \$200,000. With grounds and furnishing the enterprise will represent an investment of about \$275,000. Center—Front and side views of the new juvenile home being constructed on Fruit street, near Grand avenue, by the county, at a cost approximately \$40,000. This is the boys' unit, it being the intention later to duplicate the unit as a home for girls. Lower left—New hall of records, which was built immediately north of the present county jail, and into which some of the county officers today were moving from rented business rooms and from the courthouse. The county has expended about \$220,000 in this building. Lower right—Three story home of the Pacific Telephone and Telegraph company, erected at the northeast corner of Bush and Fifth streets and costing \$100,000. The company's business office is now located in the building. According to E. S. Morrow, manager, it will be about June 1 before the company transfers its switchboard plant to the new structure. Adjoining the telephone building, scene on Fifth street, looking west from a position immediately east of the telephone company's structure.

### STRIDES TOWARD EMPIRE OF INDUSTRY QUICKENED AS MILLIONS ARE SPENT

Making colossal strides along the pathway of progress and prosperity, the business men and investors of Orange county are steadily building up a mighty agricultural and industrial empire, which, perhaps only a few years hence, will be almost solidly built up from the foothills to the sea.

Investments by the millions of dollars are being made and huge development programs are being shaped—all tending to the ultimate creation of a marvelously-thriving region, humming with business, which even now astounds the rest of the world.

The further development of Orange county's harbor with the aid of government funds is now nearer realization than ever before in the history of the boosters' long struggle to obtain recognition for the harbor. Orange county leaders, such as C. C. Chapman, capitalist of Fullerton, are confident that congress will act favorably when the request for assistance is placed before it.

Network of Highways. Looked upon by the boosters of the Newport Beach and Costa districts, in particular, and by those of the entire county, in general, as designed to form a gigantic "backbone" for Nature's Prolific Wonderland, the highway proposed to be built from Costa Mesa straight north to Fullerton is virtually assured, in the belief of those sponsoring the plan. More than usual interest centers in a meeting that is to be held at Costa Mesa Saturday night, when it is expected that definite steps looking toward initiating the highway project, which it is estimated will cost \$137,000, will be taken.

In virtually every citrus growing community of this vast citrus growing district—at Villa Park, Garden Grove and elsewhere—plans are being formulated for, and work is already actually in progress on, new packing plants or additions to those already built.

Industrial Survey. A movement that is expected to have far-reaching results for the welfare of the city is the industrial survey recently begun by the Chamber of Commerce here. This survey, when completed, will show exactly what Santa Ana has to offer in the way of advantages to those who contemplate establishing factories in the Southland. The survey is expected to require two months to complete.

In the meantime, the various public utilities corporations—including the Southern California Edison company, the Southern Counties Gas company, the Pacific Telephone and Telegraph company—continue to spend vast sums throughout the county to keep pace with the ceaselessly increasing demands for service.

The rat-tat-tat of the carpenter's hammer is heard in every city and hamlet of the county. Contractors are hard pressed to keep up with the demand for housing accommodations for the hundreds of newcomers arriving every month from all parts of the nation.

Subdivisions continue to be opened, not only in acreage immediately adjacent to cities, but also in districts now looked upon as "in the country"—not only being opened, but sold.

Forward-looking men and women, taking stock of the herculean strides being made in the county, do not find it difficult to look upon Orange county's harbor as a port where say ten years from now, perhaps less, scores of ships will be riding at anchor awaiting their turn to dock at the crowded piers and unload their cargoes and reload with oranges and the vast variety of manufactured goods produced by the farms, oil fields and factories of Greater Santa Ana and the dependent county adjacent to this metropolis.

Nor does it require a great stretch of imagination for these boosters to view a large portion of the Irvine ranch as dotted with picturesque bungalows with their neat lawns and small garden plots; nor to see Lemon Heights as a region of towering mansions looking down upon a business district covering the entire area of what is now Santa Ana.

Santa Ana a city of skyscrapers? Orange county virtually one metropolis!

### SALE TOTAL IN NEW TRACT IS \$240,000

The sale in virtually five weeks of all of the 298 lots in McFadden subdivision No. 4, was cited today by A. B. Roussele, owner of the tract, that interest in property on the southside continues active. The sales totalled approximately \$240,000, Roussele said.

Although opened less than two months ago, Roussele said twenty-five houses have been erected on the tract. Gas mains now are being installed and water mains have been laid, with the water source a private pumping plant on the tract. Wires to provide electricity for the tract now are being strung by the Southern California Edison company.

Roussele today called attention of lot owners to the fact that the automobile offered by him will be given away at 2:30 p. m., March 1, at the tract office.

"The districts on each side of South Main street, both inside and outside the city, are developing into active business and residence sections," Roussele said. "The sale of lots in new subdivisions with numerous resales at advance prices clearly indicates that property in the south side is regarded with favor by many who are interested either in acquiring a home or the purchase of a site for erection of residence later."

"Property values are raising and will continue to increase as developments proceed. The population is rapidly gaining proportions that presage development of an active business district on South Main street."

### Tustin Man Trades For Property Here

According to reports from Tustin today, B. B. McCulla has traded his residence in the Mountain View Gardens subdivision there to J. U. Viar for the latter's residence at 312 Cypress avenue, this city.

### Local Merchant Buys Fruit Land

Walter N. Vandermast, local merchant, today had come into possession of five acres of orange land on the San Joaquin Fruit ranch tract by purchase from A. B. Samuels of Glendale.

### Residence Here on 20th Street Sold

W. A. Willey, sales manager for R. W. Townsend Motor company, has purchased from E. J. Chambers and E. L. Molchan the residence at 407 East Twentieth street.

Call at 523 N. Main or phone 2006 for full details regarding Sherwood Gardens.

### WOULD EVEN CARRY CHILDREN TO CAL.

As proof that Easterners are getting the "California or bust" spirit, the Kansas City Star prints the following: "The other day a woman and three children were put off Santa Fe train No. 11 at Kinsley because they had run out of money. The woman went to the Chamber of Commerce and failed to get any help, so she started to walk, carrying a baby in arms and with one child and another 3 tugging at her skirts. A passing motorist picked the little family up and gave them a ride to Ollerie, and the last seen of them was as they walked on toward Spearville. The woman said she wanted to get to California and was going to get there if she had to walk all the way and carry the children."

### Fruit Body Plans To Enlarge Plant

Disclosing a \$15,000 expansion program, calling for doubling the capacity of the present plant, growers affiliated with the Villa Park Orchards association, Villa Park, today had announced plans which would enable them to handle a banner 1924 citrus crop. Having shipped 358 cars to market during the 1923 season, the association anticipates shipping 650 cars during the coming year, it was stated at the annual meeting recently.

### Apartment House Traded For Home

C. H. Erhorn, local real estate broker, has traded the apartment house at the southeast corner of Bush and Fourteenth street to F. V. Harding for the latter's residence property at 120 West Twentieth street, according to reports today.

### Realtor Located In New Quarters

F. C. Pope, retiring president of the Santa Ana Board of Realtors, today was located in his new office at 302 North Broadway. Pope has an office in the building on North Broadway that is to be moved off the premises to permit erection of the new Rohrs building, north of the building occupied by the Rankin Dry Goods company.

### Lots At Ross, 6th Streets Purchased

N. H. Leonard has purchased from George Braun the two vacant lots on the northeast corner of Ross and Sixth streets. The property formerly was owned by the late Judge F. O. Daniels. Leonard is one of the family group which recently gave the Santa Ana Y. M. C. A. \$25,000 toward the fund for completion of the Y. M. C. A. building here.

### LOCAL REALTORS TO ATTEND CONFERENCE

Several realtors of Santa Ana and their wives today were making plans to depart by automobile tomorrow for El Centro where they will attend the farms lands conference of the eighth regional district of the California Real Estate association to be held at the Barbara Worth hotel Saturday.

Among those who will attend the conference are Everett A. White, J. Wiley Harris, F. C. Pope, Max Smith, Carl Mock, W. L. Salisbury and H. H. Williamson, all of whom will be accompanied by their wives.

White is vice-president of the state association, being the representative of the eighth district. He will preside at the conference. A dinner and program at the hotel Saturday evening and a trip to the intake of the Imperial valley irrigation system on Sunday are entertainment features scheduled for the delegates.

### Home in Linwood Tract Is Bought

Rolla Hays, 2103 North Broadway, has purchased from F. H. Haid a residence on East Side avenue, in the Linwood tract, it was reported today. It is understood that Haid accepted as part payment a vacant lot on South Main street, in the Chanticleer Manor subdivision.

## Southern California Does One-Twentieth of Building

Southern California did one-twentieth of all the building operations in the United States during 1923, says Southern California Business, official magazine of the Los Angeles Chamber of Commerce. With one per cent of the nation's population, Los Angeles did a little more than five per cent of the nation's building. In other words, this city did practically four per cent more than the average building operations in the entire country. The magazine article says: "If this city had done building operations of the same average as the rest of the United States, the city's total for the year would have been \$40,000,000 instead of over \$200,000,000."

"This astonishing building record is not confined to Los Angeles alone, but applies to practically every city in Southern California. It is not a story of Los Angeles' progress in itself, but the story of the progress of the entire Southern group of counties. While the Los Angeles records for last year were almost double those of the year before, the same is true of Long Beach, where the figures jumped from \$14,041,419 in 1922 to \$23,697,830 for 1923. San Diego showed a gain of nearly \$2,000,000 for the year and East San Diego almost double the operations of the year before. The figures for Ventura were more than doubled as were those of Culver City, Hermosa Beach, Compton, Torrance, Fullerton, Burbank, Anaheim, Riverside, South Pasadena, Huntington Park, Inglewood, Whittier, Santa Monica, Alhambra, Manhattan Beach, San Gabriel, Lynwood, Norwalk, Corona, El Monte, Azusa, Downey and Venice.

Among the more noticeable gains in smaller cities were:

City	1923	1922
Glendale	\$10,047,694	\$6,305,971
Alhambra	7,231,330	3,813,506
Santa Monica	6,045,254	3,878,365
Santa Ana	5,166,587	3,771,831
Whittier	3,011,976	1,938,675
South Pasadena	2,665,964	1,568,144
Riverside	1,872,295	1,458,439
Torrance	1,651,492	378,450
Compton	1,360,450	662,819
Culver City	693,597	336,860
Arcadia	673,814	77,105
Manhattan Beach	654,300	354,846
San Gabriel	546,809	227,190
Lynwood	500,000	20,000
Norwalk	450,000	33,600
Corona	295,000	80,750
Azusa	295,662	80,750

A careful survey of the situation, not only in Los Angeles, but in the entire Southern part of the state, indicates that 1924 will eclipse even the astonishing figures of last year. Even if Los Angeles should produce a record for 1924 of \$250,000,000 it would not be surprising to those who have kept close track of the trend of the city's progress, and the same holds true in a proportionate gain for other Southernland cities.

## BARES GROWTH AS REFLECTED ON GAS FIRM

(Continued from Page 9)

In 1923. This entailed an outlay of \$47,735.

"Completed in 1923" at a cost of nearly \$50,000, the new gas office in Santa Ana is looked upon as one of the most modern and efficient offices on the company's system.

Meter Totals Listed  
"As of January 31, last, we had in operation meters as follows: Santa Ana, 6943; Orange, 2236; Anaheim, 3236; Fullerton, 2431; Placentia, 646; Garden Grove, 535; Newport, 1101, and Tustin, 397, a total of 17,565 meters."

"At a cost of \$9,473, a new gas main, 14,720 feet long, replacing defective equipment, was installed at Buena Park last year.

"On Commonwealth avenue, Fullerton, replacing the pipe formerly on that street, we laid more than 2400 feet of 3-inch pipe, while, at a cost of \$2,147, we laid a 1990-foot line on Union and Harvard avenues, in that city. On the two latter thoroughfares the work was a replacement, carried out at a cost of \$2,135 and consisting of a 4-inch main.

Other Improvements  
"The Newport Beach gas system, which we acquired early in 1923, we improved at a cost of \$27,000, installing 3,150 feet of 6-inch pipe; 3,720 feet of 4-inch pipe, 1,740 feet of 3-inch pipe, and 4,600 feet of 2-inch pipe. All of our gas mains there were laid before completion of Newport Beach's extensive campaign of paving, last year.

"Purchase of a lot and installation of a new gas office on Palm street in the Balboa end of Newport Beach entailed an expenditure of approximately \$10,000.

"More than \$28,000 of the year's orange county expenditures were made last December, while the remainder was distributed over the preceding eleven months. The company, through the general improvement of its system in the county, was placed in excellent position to meet all demands for gas service this year."

## JURY IN PROBE OF BOXING BOUT DEATH

STOCKTON, Feb. 14. — At least five men faced manslaughter indictments today as the grand jury began an investigation of the recent death of Ed Holley, following a boxing bout.

Jesse "Pap" Webster, Oakland negro boxer, who struck the fatal blow was one of the first witnesses called by District Attorney Van Vranken.

Indictments depend on whether the jury finds the bouts were held in violation of the city and state laws. Permits to hold fights in Stockton had been revoked and the unfortunate event was being held as a test case.

Frank Bilecki, the promoter, was questioned at length concerning the arrangements for the match. Webster and Bilecki were arrested following Holley's death and released on bail.

Claims History Is Pro-British

SACRAMENTO, Feb. 14. — F. J. O'Brien, member from Chico, will make a determined attempt at the next meeting of the state board of education to have Muzel's American history text book ousted from the state schools on the ground "that the book contains pro-British propaganda," he announced today.

Radio Supplies, Hawley's.

## Jewelry Firm Ties Up Actress' Funds

LOS ANGELES, Feb. 14.—Bank account and salary of Mae Murray, film star, have been attached by a local jewelry firm, it was revealed today.

Miss Murray purchased a diamond ring and necklace which were never paid for, according to the jeweler. Deputy sheriffs have attached her account in a Hollywood bank, and also her salary due from the motion picture company for which she works.

According to the plaintiffs, the necklace was worth \$2614, part of which was paid. The star bought the necklace after having it altered the firm said. Later when she had some rings sent to her home with the view of purchasing one, she sent back the necklace, it is alleged.

## Prince Orloff to Work For Ford

PARIS, Feb. 12.—Prince Orloff, son of Grand Duke Peter of Russia and one of the few surviving relatives of the late Czar Nicholas of Russia, who, with his wife, formerly Miss Margaret Russell, famous Oakland society belle, sailed yesterday for America, is going to Detroit, supposedly to work for Henry Ford.

It was through Ford's representative at Bordeaux that passage for Prince and Princess Orloff and Judge Sokoloff was booked. After learning the gentle art of turning out tin lizzies, the prince will return to Bordeaux, where he will act as interpreter between capricious Fords and French owners.

## Irish Methodists Ask American Aid

BELFAST, Feb. 11.—The Rev. Dr. Northridge, Rev. G. A. McIlraith and Rev. Mr. Byers have left Belfast for New York as emissaries of the Methodist church in Ireland to enlist American financial support and co-operation for a big church crusade in northern Ireland. They hope to collect \$500,000 to build new churches and provide extensive Methodist headquarters in Belfast.

## THIS PRESCRIPTION FOR KIDNEYS

No Drugs—Just Roots and Herbs

Five years ago Dr. Carey said: "When backache comes get after your kidneys—and don't waste any time."

"Right at the start, go to your druggist and ask for Dr. Carey's Marshroot Prescription No. 777; take it as directed until backache ceases and your eyes are clear and bright."

For more than 40 years Dr. Carey specialized in diseases of the kidney and bladder, and when, in the height of his remarkably busy life, he decided to dispense his most effective kidney and bladder prescription through the better druggists, he helped thousands who could not afford to go to him for treatment.

Thousands of unobtrusive people have kidney ailments and never know it until too late. High colored urine, getting up in the night, puffy eyes tell the story.

If you even suspect—start today with Dr. Carey's Marshroot Prescription No. 777. It will drive the poisons from your kidneys and your druggist knows all about it. C. S. Kelley Drug Store dispenses lots of it. It comes both in liquid and tablet form. It will help you as it has a host of others. If it should not, if you aren't glad in one week's time that you bought it, money gladly returned. Price, \$1.50 and well worth it. A big seller in the east. (Mail orders accepted).

## HARBOR IS HELD SANTA ANA'S BEST ASSET

(Continued from Page 9)

some foundation or fundamental reason for its existence; and just as surely Santa Ana has plenty of backing in this regard for its pleasing growth thus far.

Boat Traffic Wanted  
"The basic foundation for great cities is commercialism, and consequently we may assume that in order for Santa Ana to enter the real metropolis class we must be prepared to force our way into that character of enterprises."

"Commerce is attracted chiefly by cheap and convenient transportation. There is no other argument to compare with carrying charges in the attraction of commercial and industrial enterprises. The cheapest transportation in the world is that furnished by boats, and, thus, we find virtually all great cities located on harbors or waterways of some sort; for any city supplied with water traffic has a supreme advantage over any city remote from a water-front."

"The commercial metropolis of Orange county, under its present development, it seems to me that Santa Ana cannot maintain its present rate of increase; but with the advent of great industrial plants, or, in other words, 'payrolls,' there would be no limit to its size or greatness."

Newport Harbor Answer  
"We are not now on any through trunk line of railroad, and we cannot reasonably hope for such a connection. But we of Santa Ana and Orange county have at our front door one of the finest natural harbors in the world, partly developed and lying dormant in the face of the most wonderful commercial opportunities ever offered to any community."

"In my judgment Newport harbor is the whole answer to the question of whether or not Santa Ana is able to become a metropolis."

"Let me go a little further and say that I believe that Santa Ana, Orange, Anaheim, Fullerton and Newport Beach should all consolidate into one big harbor city, and develop Newport bay into the really great harbor, which it is destined to become, without losing any more time about it."

Delay Is Deplored  
"Every year's delay on that harbor means a loss of millions of dollars to Orange county. The name of this 'big city' would be a minor consideration. Each of the present municipalities would maintain its identity just as Hollywood does, although it is a part of Los Angeles."

"The main idea, however, is that it takes commerce to make a real metropolis, and the harbor will give us the commerce."

## AMERICA BACKS \$150,000,000 JAPAN LOAN

NEW YORK, Feb. 14.—A \$150,000,000 loan, one of the greatest if not a record peace time international financial issue, has just been completed between the Japanese government and a group of American financiers, headed by J. P. Morgan.

The transaction, completed at the Morgan home Monday night, means that Japanese government bonds in this sum will be floated in the United States and certain European continental countries.

The money advanced to Japan will for the most part return to the United States through direct trade channels, constituting an assured business stimulus during the present year.

Simultaneously with the completion of the loan transaction in New York, a similar loan of 25,000,000 pounds Sterling was arranged in England between the Japanese and a British group of financiers.

The combined loans will serve to repair completely the damage wrought by the earthquakes of 1923, which devastated Tokyo, Yokohama and other cities and towns.

Under conditions of the loans, the bulk of Japan's expenditures will go to this country's lumber trade. Steel and other industries are expected to benefit likewise. An interesting feature of the transaction is that the United States receives a larger share of the business than England, which before the war, always had what appeared to be a first call on the new international business.

## Farmer's Auto Is Used for Business

WASHINGTON, Feb. 11.—Automobiles on farms are used more for business than for pleasure, a survey by the department of agriculture discloses. On 1371 farms surveyed 923 farmers reported ownership of automobiles or trucks, and stated that from two-thirds to nine-tenths of their use was for farm business. Two-thirds of all machines reported were light touring cars, which can be used for all purposes.

## Wife Ignored in Husband's Will

NEW YORK, Feb. 11.—Although survived by his wife, Jennie Giddings of 134 Walford road, Birmingham, England, there is no provision made for her in the will of Robert Day Giddings, filed for probate. The bulk of the estate, valued at over \$10,000 in personal property, is left to his mother, Marie Giddings of Hibbert street, Bedfordshire, according to the police.

## Will Santa Ana Become a Metropolis

Certainly, Santa Ana is bound to become a metropolis. We have the fruit—we have the best climate—we are within a stone's throw of Laguna, the finest beach in the world—we have the harbor already started. The all-year spring enables factory employees to work with the same efficiency the year round.

But we are slow to extend our city limits. Orange has moved halfway to Santa Ana and we sit idly by and wait for her to move to our very threshold instead of moving our city lines against the present boundary of Orange.

In five years I expect to see a solid line of houses from here to Los Angeles. And I don't mean a single line of homes, either.

With a few more boosts we'll get there sooner, but we are bound to become a metropolis just the same.

FRED C. BLAUER.

## Ranger Discovers Odd Indian Tribe

BERKELEY, Feb. 13.—A tribe of Indians whose members communicate among themselves only by whistling and who can talk to birds in the same manner has been found in the Siskiyou mountains in northern California by J. R. Saxon of the United States forestry service.

Saxon said that for weeks forest rangers in a remote part of the Siskiyou had heard uncanny whistlings over the service wires that stretch from station to station through the mountains. He went to investigate and after nightfall was caught in a mountain storm. He found a small cabin of Indian construction. It was empty and he prepared to spend the night there.

Finds Indians.  
For two days, related Saxon, he lived there in this way.

Finally, on the third day, several Indian men appeared at the cabin, and in sign language informed him that he had been their guest.

"To my amazement," he said, "I learned that they did not speak to one another in any language of words or in the ordinary articulate sounds of human beings, but that they conversed only with staccato whistlings."

He described the men as shy, adding that the women were like deer.

"At the sound of my voice," he explained, "the women fled into the canyons."

Offshoot of Karok.  
He said the Indians led him to the nearest forest service telephone station and by signs conveyed to him that they had seen forest rangers using this instrument and had themselves experimented with it in their whistling tongue. This explained the mysterious sounds.

Saxon believes that the isolated clan of "whistling people" is an obscure offshoot of the Karok tribe of Klamath Falls Indians.

## STEEL FIRMS SEEK IMPROVED METHODS

PITTSBURGH, Pa., Feb. 12.—Lower building costs to the public will result from action which the American Institute of Steel Construction took at its third annual convention held in Pittsburgh January 23 and 24, according to members of that body. The organization, which is composed of 130 prominent steel firms in the United States and Canada, announces as its purpose constructive co-operation within the ranks of the structural steel fabricators to the end that both the industry and ultimate consumer be benefited. Efforts to secure countrywide adoption of a standard specification and erection of structural steel is one of the main objectives toward which the institution members are working.

The sponsors of the institute, which maintains executive offices in New York and engineering headquarters in Cleveland, Ohio, claim that millions of dollars are wasted in the United States every year because of a lack of thorough understanding and general agreement among steel men as to the possibilities of their product in construction. They aim through co-operative effort to educate the industry as to these possibilities, and to eliminate the waste which comes from the use of unnecessary processes and the duplication of sizes and shapes.

Addresses at the convention were made by men connected with the steel industry, representatives of the United States Department of Agriculture, the Chamber of Commerce of the United States, and other commercial and industrial bodies. The speakers included James A. Emery, general counsel of the National Association of Manufacturers and of the National Industrial Council, Washington, D. C.; E. F. Kelley of the United States Department of Agriculture, chairman of the committee of the American association of State Highway Officials; J. D. Ellsworth, advertising director of the American Telephone and Telegraph company, New York; E. W. McCullough, manager, Fabricated Production Department, Chamber of Commerce of the United States, Washington, D. C.; John G. Jones, vice-president of the Alexander Hamilton Institute, New York; Ed W. Reulbach, commissioner, New York Piano Manufacturers' association, New York; John W. Doty, president, the Foundation Company, New York; Walter Drew, counsel, National Erectors' association, New York; and Russell R. Whitman, president of the New York "Commercial."

ACCUSES MILLIONAIRE.  
LOS ANGELES, Feb. 14. — R. Fred Vogel, millionaire, is charged with habitual intemperance and cruelty in a divorce complaint on file here today, brought by Mrs. Edna R. Vogel. The couple married in San Diego, June 6, 1917.

C. W. Kerfoot and family of Los Angeles are new arrivals in Santa Ana where they will make their future home. They are residing at 702 South Sycamore street. They will be joined by W. J. Kerfoot and family, their parents, next Monday. The Kerfoots plan to establish a Gene Morris One Day auto painting system here.

LOS ANGELES, Feb. 14. — High Farwell, said to be wanted in Tacoma on a charge of fraudulently dealing in government land, is held in jail here today.

Farwell, after his arrest by local officials yesterday, attempted to escape and was not stopped until several shots were fired at him, according to the police.

## Jail Suspect In Huge Land Fraud

LOS ANGELES, Feb. 14.—High Farwell, said to be wanted in Tacoma on a charge of fraudulently dealing in government land, is held in jail here today.

Farwell, after his arrest by local officials yesterday, attempted to escape and was not stopped until several shots were fired at him, according to the police.

## CHAIN GROCERY TO ENTER CITY IMMEDIATELY

(Continued from Page 9)

three grocery stores, was revealed here today by W. B. Martin, realtor, who announced leases on three locations.

The company has taken leases on one of the rooms of the P. H. Medlin building, to be erected at the corner of Bishop and South Main streets, work on which already has begun; in the building at 802 East Fourth street, on which Frank McCarter, owner, expects to start operations within a month or six weeks, and in the George Bunting building, corner West Fourth and Bristol streets, recently completed.

Martin is authority for the statement that there is possibility that drug stores also will be located in each of the buildings in which Seelig already has obtained leases. It is understood drug store leases are now being negotiated by the owners of each of the properties.

Seelig already has obtained leases on one of the rooms of the P. H. Medlin building, to be erected at the corner of Bishop and South Main streets, work on which already has begun; in the building at 802 East Fourth street, on which Frank McCarter, owner, expects to start operations within a month or six weeks, and in the George Bunting building, corner West Fourth and Bristol streets, recently completed.

## An Amazing Fact

To many people it may seem incredible that a habit so common as coffee-drinking can be harmful. Yet if your doctor were to enumerate the common causes of indigestion, headache, and run-down condition, he would be likely to mention coffee.

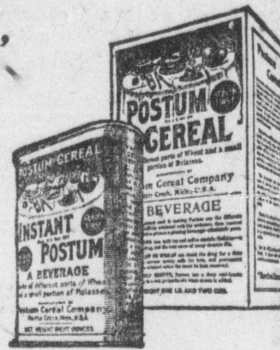

If you are troubled with insomnia, nervousness, or are inclined to be high-strung, try Postum in place of coffee for thirty days, and note the difference in the way you feel, and how much better you sleep.

Postum is a pure cereal beverage, absolutely free from caffeine, or any harmful drug.

## Postum for Health

"There's a Reason"

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer the flavor brought out by boiling fully 20 minutes. The cost of either form is about one-half cent a cup.

## CAL. BUILDING MARK IN JAN. IN INCREASE

A slight seasonal reduction in building activity chiefly noted in the larger California cities today had been recorded for January in the Pacific coast section of the national building survey of S. W. Straus and company. This survey, however, shows a very substantial increase in the January figures over those of the same period of last year.

Santa Anas are interested in a comparison of the building expenditures in the following California cities. The amounts show the building in January, 1924; January, 1923, and December, 1923, respectively.

Santa Ana, \$224,955—\$339,134—\$199,905.  
Fresno, \$216,919 — \$1,192,187—\$142,940.  
Pomona, \$154,700 — \$161,455 — \$119,660.  
Stockton, \$219,455 — \$183,620 — \$351,725.  
Bakersfield, \$48,141 — \$111,080—\$41,561.  
Alhambra, \$465,700 — \$415,125—\$363,310.  
Pasadena, \$924,462 — \$772,483—\$651,314.  
Santa Barbara, \$128,885—\$662,235—\$100,802.  
San Bernardino, \$292,200—\$226,225—\$156,755.  
Riverside, \$329,823—\$217,486—\$480,718.  
San Diego, \$738,431—\$532,150—\$1,047,301.  
Santa Monica, \$526,590—\$459,535—\$326,960.  
Glendale, \$1,029,533—\$1,024,336—\$800,642.  
Long Beach, \$3,198,048—\$1,283,026—\$1,255,104.  
San Francisco, \$3,178,413—\$3,205,511—\$4,952,444.  
Los Angeles, \$14,558,526—\$11,258,517—\$20,768,194.

California's January total of \$30,256,496, from thirty-five cities in the survey, shows a 15 per cent gain over last January, but a reduction of 17 per cent from the December figures. Of these thirty-five cities, twenty-two show gains for January over December while thirteen, including the larger cities, show reductions.

Los Angeles issued \$13,158,526 in building permits during January, thirty-four per cent of the grand total for the entire list of forty-four cities in the survey. This figure is sixteen per cent greater than that of last January, but thirty-six per cent under the December record.

Santa Ana gains Long Beach, with a January total of \$3,198,048, reports a gain of 131 per cent over last January and a gain of \$154 per cent over December.

San Francisco reports \$3,178,413 for January, showing reductions of less than 1 per cent from last January, but of thirty-two per cent from the December total.

San Diego's January total of \$738,431 is 38 per cent greater than last January's figure, but shows a 29 per cent reduction from December.

Oakland, reporting \$2,019,166 for January, shows a 9 per cent gain over last January, but a loss of twenty-one per cent from December's figures.

Among the smaller cities which report substantial gains, January over December, are Alameda, Bakersfield, Berkeley, Fresno, Modesto, Pasadena, Pomona, Sacramento, San Bernardino, San Jose, Santa Ana and Santa Barbara.

## TELEPHONE PLANT WORK IS SPEEDED

With twenty-five men working overtime, indications today were that installation of the mammoth switchboards in the new home of the Pacific Telephone and Telegraph company will be speeded very materially in the next few weeks, according to Manager Earl Morrow here today.

Marked progress has been made in the last month, Morrow said, but a great amount of work remains to be done. When completed the building will be one of the finest structures of the kind in the Southland, Morrow declared.

## Anaheim in United Bid to Industries

Mayor Stark of Anaheim and Harry Riley, president of the Anaheim Chamber of Commerce, last Monday launched a great industrial program at the city hall there.

The first step taken as a result of Mayor Stark's appeal to the citizens of Anaheim to help create an industrial center, was the securing of an option on forty acres of land adjoining the city. The industrial committee of the Chamber of Commerce obtained the option with the idea of offering the land as an ideal site for factories, it was explained.

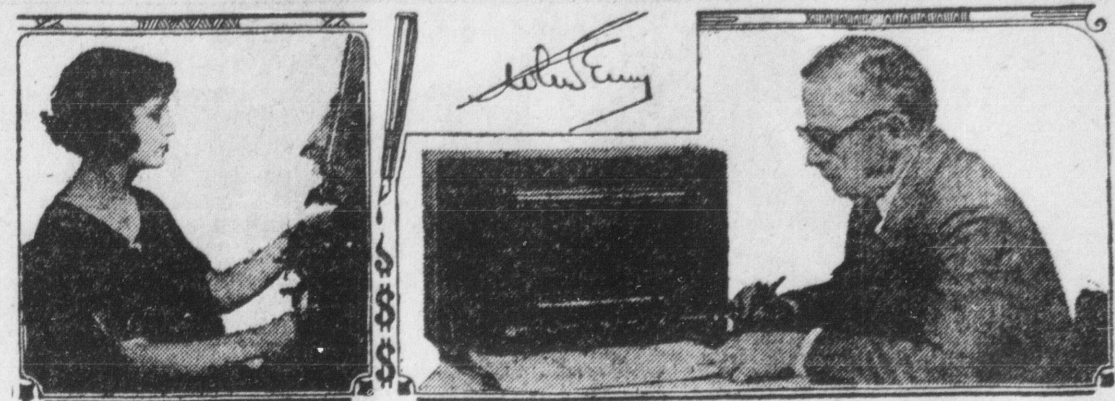

## Another Delivery Of Mail Is Given Business District

Under an auxiliary allowance received by the Santa Ana post office, a third delivery of first and second-class mail was in effect in the business section of Santa Ana today.

Hitherto the four mail carriers in the downtown area have been giving two deliveries of first and second class mail and a third delivery has been devoted to the distribution of parcel post. Under the allowance, a carrier will be available for parcel post, with deliveries starting at 8 a. m.

The post office has also received an allowance whereby two or three hours are gained in the delivery of mail to some of the residence sections in the northern part of city.

## SIGNS MORE THAN HALF MILLION CHECKS ANNUALLY FOR PERSONS IN "WONDERLAND"

Major W. L. Percy, veteran treasurer of the Southern California Edison company, signing checks with the signograph which signs four checks at a time, for the 67,000 Edison stockholders. In the center, above the signograph, is the treasurer's official signature, and it is good on Edison checks, although the individual recipient of a check may not be able to decipher the letters in the name. The machine is one of six which fills in and addresses 1500 Edison dividend checks per hour; at left, one of Percy's assistants.

## MORE TOURISTS THIS WINTER THAN LAST

As an evidence of the constantly increasing growth of Santa Ana, all of the railroads which enter Santa Ana today reported a steady increase in the amount of incoming baggage.

"More tourists have visited Santa Ana this winter than last winter," stated William B. Logue, local agent of the Southern Pacific. "If the severe weather of the East and Middle West had started earlier in the winter instead of just a few weeks ago, we would have had a much greater increase in tourist business this winter."

Peak Is Passed "Right now I think we have passed the peak of this season's travel and will not have another big rush until in May when a round-trip ticket to Santa Ana from the East will be almost as cheap as a one-way ticket. It costs \$30.14 for Chicagoans to come to Santa Ana, but after May 1 they may buy a round-trip ticket for \$36, and that will speed up the tourist influx."

Logue also announced that very little household goods is being shipped away, while there is a steady stream coming to Santa Ana. He added that the one-way tickets now being sold are principally to unskilled laborers.

Santa Ana Ranks High F. T. Smith, agent of the Santa Fe railroad, who has not missed a railroad pay check for thirty years reports that his company not only has handled more incoming baggage this winter than last year, but the business has been steadily increasing every month.

Smith gave out the following information:

"Santa Ana station of the Santa Fe ranks fifth in receipts of passenger business, according to the records of the twenty-five leading stations in the Los Angeles division. Santa Ana's railroad business was exceeded only by Los Angeles, Pasadena, San Diego and San Bernardino. Our station also ranked eighth in this division for combined freight and passenger business."

## District West of Anaheim Is Oil Activity Center

With eight wells now drilling or soon to begin operations in the district west of Anaheim as far as Cypress, oil prospects seem certain of exploitation, observers stated here today.

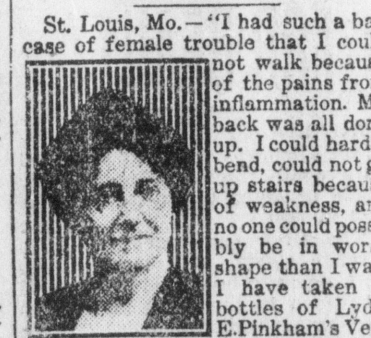

Robert Gordon, president of the Midas Petroleum corporation, expressed his confidence in the district by declaring:

"With attention of oil men and geologists so generally centered on this district, it is certain that development operations are going to be general from now on. In fact, you might say the field is established. For my own part I can state that my company has a hundred acres under lease in the Anaheim district, and will spend in not later than March 17."

My telephone number has been changed from 2086-W to 1930-J. JACK WILLEY.

## COULD NOT WALK BECAUSE OF PAIN

Bad Case of Woman's Illness Remedied by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I had such a bad case of female trouble that I could not walk because of the pains from inflammation. My back was all done up. I could hardly bend, could not get up stairs because of weakness, and no one could possibly be in worse shape than I was. I have taken bottles of Lydia E. Pinkham's Vegetable Compound, and I am a strong woman now and can work down at my neighbors. They wonder how I can do so much work. I dare say that I have recommended your medicine to a thousand women. A little book was thrown at my door, and this is how I first learned of it."—Mrs. D. M. BEAUCHAMP, 1104 Morrison Avenue, St. Louis, Missouri.

Letters like this bring out the merit of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments as afflicting Lydia E. Pinkham's Vegetable Compound. In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

## S. A. DOWNTOWN BUILDING PLAN ANNOUNCED

Renewed activity in building in the business section of Santa Ana was seen today when announcement had been made of an entirely new structure to adorn that district.

Next to enter the group of buildings in the downtown portion is Fred Rohrs, who will erect a structure on North Sycamore street on the lot immediately north of the building occupied by the Rankin Dry Goods company.

George Preble, contractor, was completing arrangements today to begin operations almost immediately on the two-story building planned by Rohrs.

The new structure will cost approximately \$30,000 and it is to be occupied, when completed, by the Mode millinery. Mrs. B. C. Roberts, proprietor of the Mode, has taken a lease on the building, but she will utilize for her business only the basement and ground floor. The second story will contain fourteen offices, Rohrs declared.

It is the intention of Mrs. Roberts to expand her enterprise to wholesaling of the hat materials she will manufacture, she stated. Construction of the new building will start as soon as a temporary building can be moved from the lots, Preble said. The building has been sold to O. Anselmino.

Dr. Albert Abrams, electronic methods. Diagnosis and treatment parlors, Smith Building, Sixth and Main streets, Santa Ana, Cal. Call or phone 1292-W or 783-J for appointment or literature. I. W. BOULDIN, M. D.

This is a good season for Auto Finishing

Winter months are more opportune for automobile painting, as there is less demand for the machines, and they can easily be spared for a day or so.

Patton's Auto Gloss Finish will renew the appearance without any unnecessary delay. It is made in sixteen colors and black and white. Dries thoroughly.

BETTER BUILT HOMES—Not Many More

## Built-in features

—cabinet made—for your home

Instead of cutting the lumber on the job and constructing the cupboards and other built-in features by the slow hand method, we secure these items from the Pacific mill knocked-down. The carpenter can then devote his entire time to the actual construction and assembly of the items and the finished job will be far neater and reflect finer workmanship.

Pacific Homes are in no way portable or sectional. The materials are prepared in ready-cut lengths at the mill so that the carpenter does not have to spend hours of time hand-sawing and trial-fitting the pieces on the job. Let us give you more facts about the ready-cut system and quote you estimates. Hundreds of plans to select from.

## Bronchitis Best Treated With Vapors

Direct Treatment with Vaporizing Salve Immediately Reaches Congested Air Passages.

If a cold has been neglected and has gone down into the chest, producing acute bronchitis, thoroughly redden the skin over throat and chest with hot, wet towels to open the pores. Then massage briskly with Vicks for five minutes, spread on thickly and cover with two thicknesses of hot flannel cloths.

For hours after Vicks is applied the vapors of Camphor, Menthol, Eucalyptus, Juniper Tar, etc., are inhaled directly into the infected air passages. At the same time Vicks is absorbed thru and stimulates the skin like a poultice or plaster.

Being externally applied, Vicks is especially good for children and is used by millions of mothers to prevent or relieve cold troubles.

## PERSONS CONTEMPLATING COMING TO CITY WRITE CONCERNING COST OF ERECTING HOME

Floor plans and five room ready-cut house being erected by O. M. Stauffer, on West Myrtle street. According to Reese and McCoid, local representatives of the Pacific Ready-Cut homes, the cost of materials was approximately \$1250, delivered at the building site.

## HOLD SUCCESS OF SCHOOL BONDS AS VITAL NECESSITY

Santa Ana's 1924 population growth continues to keep pace with the record established last year, according to a declaration made today by F. L. Andrews, secretary of the Santa Ana board of education.

Incidentally that statement tells the story of necessity at this time of providing the additional school facilities contemplated in the bond election scheduled for March 4 to erect more school buildings in Santa Ana. The issue will be for \$250,000.

School registration at the opening of the fall term in September was 25 per cent greater than the opening date the previous year, Andrews said.

**Increase Is Maintained**  
"The increase proportionately has been maintained since the fall term began," Andrews said. "Our schools again are crowded. Including the junior college, the enrollment today numbers approximately 5200."

"The phenomenal population growth of Santa Ana perhaps can be no more forcibly illustrated than by the statement that the schools today are overcrowded in spite of the fact that last year we erected four new school buildings and made additions to four of the grammar schools."

The four new schools constructed were Washington, Lowell, John Muir and the Julia C. Lathrop junior high school buildings. Additions also were made to the McKinley, Franklin, Spurgeon and Lowell grammar schools.

**Two Issues At Stake**  
"Virtually two elections are to be held on March 4, one to vote on an issue of \$100,000 for new building and equipment in the high school plant, and the other for an issue of \$150,000 in the Santa Ana grammar school district to provide additional grammar schools."

Briefly it is proposed to construct at the high school another building to be utilized largely in providing educational courses required by the state department of education. The basement will be used as a cafeteria.

In the grammar school district it is proposed to erect a new building in the southeast part of the city, probably on the site of the Roosevelt school; purchase of a site in the southeast section for a future grammar school, and build additions to Lincoln and Jefferson schools.

Numerous changes in arrival and departure of Santa Fe trains, including faster schedules, will be put into effect Sunday, according to announcement made here by F. T. Smith, local agent for the railroad.

"The Los Angeles, San Joaquin valley, Arizona, and Albuquerque divisions are effected by the new time card," he said. "On the Los Angeles division, the California Limited will arrive from the east at 2:15 p. m., which is twenty minutes faster than the present schedule. Number 21, the missionary, will be speeded up to arrive in Los Angeles at 8:30 p. m. instead of 9:15 a. m. as at present."

"This train eastbound will leave Los Angeles at 5 p. m. stopping at various stations as far as Fullerton, which now is being taken care of by train Number 54, which will be discontinued. Number 51 will be discontinued between Atwood and Los Angeles, also trains Numbers 55 and 56 between San Bernardino and Riverside. Number 51 will leave San Bernardino at 8:10 a. m. and will run through to Orange, arriving at 10:10 a. m. connecting with train for San Diego."

"The San Diego sleeper for the California Limited eastbound will be taken to San Bernardino via Riverside, giving the people in that vicinity, the advantage of service to Kansas City and Chicago without change. This sleeper will leave Orange at 11:25 a. m. connecting with Number 4 at San Bernardino at 1:15 p. m."

Train Number 9, the Navajo, will arrive at Bakersfield, about 10:25 a. m. and will run through to arrive at San Francisco at 8:00 p. m. This train will pick up Cafe observation car at Corcoran, eliminating a stop for lunch at Merced. The connections for Porterville will be effected as now. Train No. 53 for Sunset Railway will be set back to leave Bakersfield at 10:40 a. m.

"Number 21 will arrive at Bakersfield at 8:00 p. m. and at Fresno 20 minutes earlier than at present. The cafe car now arriving on Number 42 at Fresno, will be taken to Corcoran to return on Number 9. Number 41 will be set back to leave Fresno at 8:00 a. m. which is one hour later than the present schedule. Train number 5 will run on its present schedule."

"On the Arizona division Number 7 will arrive at Barstow at 5 a. m. which is approximately two hours earlier. This train will arrive in Los Angeles at 10:00 a. m. instead of 12:30 p. m. as at present."

"The missionary, westbound, will take breakfast at Needles, instead of Kingman, and dinner at Barstow at 2:00 p. m. Number 4, The California Limited, will be 10 minutes faster through Barstow, Needles and points beyond. Number 2 will arrive at Winslow at 5:30 a. m. instead of 7:30 a. m. as at present, taking breakfast at Gallup at 9:10. Under this schedule, the money without comment."

He freely gave his discovery, which he called Allenhu to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed C. S. Kelley Drug Co. to dispense Allenhu with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment."

eleven years ago, read her funeral service.

Louise Lawson didn't come home as she had planned. She had often visioned her own return, hailed by her proud family and friends as an opera star.

But no greater homage could have been paid her than was shown today by the simple folk who still believed in her.

All the stores in Alvarado were closed and from miles around came sympathetic, big-hearted Texas folk who remembered Louise as a "curly haired little tyke," a favorite "kid" around town.

The honest tribute of these simple

mourners seemed like irony in the wake of her New York tragedy. These friends paid her the same measure of tribute in cold death that her gay Broadway companions accorded when the warmth of life suffused her body.

Scarf at Stories. They scoffed at the extravagant stories of her death—the sumptuous apartment where they found her body in a soft bed of negligee sprawled across her dainty bed never existed to them; the liquor and the photographs of millionaires admirers and the jewels were just newspaper stories.

## MAN POSTS BAIL IN SERIOUS CASE

Mr. and Mrs. Roy C. Skinner were at liberty here today, after they had spent three days in separate cells in the county jail, pending the arrival of government officers who, it was thought, would take the man back to Louisiana to face serious charges.

A charge of violating the Mann act was placed against Skinner by a department of justice investigator who filed the complaint here yesterday.

After the arrival of the government officers from Los Angeles, Mrs. Skinner was released on her own recognizance, and Skinner supplied \$1000 bail, pending the preliminary hearing which will be conducted by United States Commissioner Maurice F. Enderle here, March 1 at 10 a. m.

Skinner, a painter by trade, was understood by sheriff's officers to have a wife living in Louisiana. The Mrs. Skinner in Santa Ana informed the sheriff she did not know Skinner was a married man when she left Ruston, La., with him last October, and they came to California together in automobile.

According to Sheriff Sam Jernigan's version of the case, the couple traveled together as "friends" until they reached San Diego, where they said they were married several days ago.

Mrs. Skinner said her name prior to her assumed marriage was "Viola May Shaw."

## Says His Prescription Has Powerful Influence Over RHEUMATISM

Has Also Proven Remarkably Successful In Severe Cases of Rheumatic Neuritis

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenhu to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers.

He has therefore instructed C. S. Kelley Drug Co. to dispense Allenhu with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment."

## TEXAS VILLAGE IN MOURNING FOR BEAUTY

ALVARADO, Texas, Feb. 14. — From Broadway, where she danced with death, Louise Lawson came home to Main street today to be laid in rest.

The "Broadway Butterfly," whose strange playing still puzzles the police, was to be buried simply this afternoon in the same plot where her grandparents—pioneer Texans—lie.

Hundreds of home folks who disbelieve the tales of her vivid career in New York, paid reverent homage today to the memory of Louise.

Remembered as Child.

They remember her only as the plan and ambitious little girl of a few years ago who left home to study music in New York. They will not listen to the stories of her luxurious life on Broadway which culminated in her tragic death.

This afternoon these faithful friends were gathered with the sorrow-stricken relatives in the little Baptist church where Louise used to sing and play the organ. They will hear Dr. F. S. Groner—the kindly pastor who baptized her

"Buy Things Electrical at an Electrical Store"

## LADIES!

Every one of you are anxious to learn how to save time, energy and good looks. Call at our store any time this week and meet the Factory Representative of the Russell Electric Company, Chicago, who make the noted line of Electrical Appliances called the "Hold Heet."

She has a story to tell you about their Flat Iron that will certainly interest you. Too, she wants to serve you cookies made on the Waffle Iron and also tell you how to make other goodies on this Iron.

There are many other appliances made by the "HOLD HEET" Co., that we cannot tell you about here, but will be only too happy to show you and explain about the "Two year guarantee" which is an exclusive feature of the Russell Electric Co.

## NOTABLES TO SPEAK HERE AT ANNUAL REALTOR MEET

With some of the most prominent realtors in the state scheduled to deliver addresses, and a program of special vaudeville numbers by professional talent on the program, the annual inaugural banquet and ball of the Santa Ana board of realtors, to be held to-night at 8:30 o'clock at St. Ann's inn, will eclipse the success of previous annual affairs, according to Max Smith, chairman of the committee on arrangements.

The banquet also will signal the close of a year in which the Santa Ana board has been most successful in its local operations and has won prestige in the state as one of the most active boards identified with the California Real Estate association.

The speaking program will be limited to outside speakers and will be completed by 10 o'clock, when dancing will offer entertainment for the remainder of the evening.

### State Chief To Speak

Henry Barbour of Long Beach, president of the California Real Estate association, will have as his subject, "Orange County Harbor." C. C. Tatum of Los Angeles, former president of the state association and now vice-president of the National Association of Real Estate Boards, will discuss "The 1924 Outlook. From the National Standpoint."

William Herren, field secretary of the national association, and Glenn Williams, secretary of the state organization, will present briefly the work in their respective fields. Edwin F. Keiser, state real estate commissioner, will discuss features of the business of his department.

J. W. Tubbs, mayor of Santa Ana, will make the address of welcome. Frank C. Pope, retiring president of the local board, will discuss some of the activities of the organization here during the past year.

Formal introduction of the new officers will be made. They are J. Wiley Harris, president; J. C. Wallace, H. H. Williamson and J. C. Wallace, vice-presidents, and W. B. Martin, secretary.

Recapitulation of some of the more important activities of the board in the past year, Pope today declared that the voting of bonds for enlargement of the sewer system, purchase of water pipe for the municipal water plant, additional equipment and two new fire stations and assistance in repaving West Fifth street were to a certain extent direct results of the board's work.

He recalled that committees of the board made surveys that disclosed imperative need for these municipal improvements and that the city council called a bond election following recommendation by the board.

### Realtors' School Formed

Establishment here by the University of Southern California, at solicitation of the board, of a school for education of realtors in their chosen profession, also was pointed out as a worth-while accomplishment. With approximately eighty members, composed of realtors from all parts of the county, the class meets here every Monday evening, at the Francis E. Willard junior high school.

Pope said the constant aim of the board is to give its members every advantage for equipping themselves for handling the business of selling real estate with the principal of a square deal to the buyer and seller dominating every action.

Organization of a multiple-listing bureau of the board, placed in operation a few weeks ago, while not accomplished in 1923, was a result of efficient work during the year. It is considered one of the outstanding accomplishments.

It was declared today that board members handle 90 per cent of the real estate transactions in Santa Ana and vicinity.

## \$12,917,975 In Building, S. A. 4-Year Record

In the four years since January 1, 1920, Santa Ana has issued a total of 16,532 building permits calling for a total investment of \$12,917,975, according to a building survey recently made by S. W. Straus and company.

The greatest annual record was that of 1923 when 1826 permits called for a cost of \$5,166,687.

Santa Ana has increased in population during that period from 15,485 to 30,000, the greatest gain occurring in 1923.

Rental schedules are approximately 10 per cent higher than in 1920.

The average permit, over the four years' period, calls for a cost of \$2293 and the average investment per new corner is \$1032, the survey revealed.

## Placentia Road District Limits Reduced Fourth

The board of supervisors today had adopted boundary lines for the Placentia road improvement district, cutting down the original territory 25 per cent and reducing the assessed valuation of the district approximately 20 per cent, it was estimated. Ranch acreage not fronting on a highway schedule for improvement was eliminated from the district.

## WARNS AGAINST BUYING FROM PEDDLERS

By P. S. LUCAS

Secretary M. J. M. Assn. Every once in a while the Merchants and Manufacturers' association issues through the columns of The Register a warning to the general public. The purpose of these warnings should be so thoroughly understood by the public, that when they are made known immediately cooperation of the citizens of the community should result in riddance of the cause.

William B. Joyce, chairman of the National Surety company of New York, estimates from a well-kept and well-known table of figures, that thefts to the amount of \$3,000,000 will occur in the United States during the year 1924.

His tabulation follows:

Stock frauds	\$1,000,000.00
Credit frauds	1,250,000.00
Embezzlement	250,000.00
Forgery	100,000.00
Swindles	100,000.00
Railroad ft. thefts	25,000.00
Home building frauds	25,000.00
Misc. finan. frauds	1,000,000.00
<b>Total</b>	<b>\$3,000,000.00</b>

### Crooks Operate

This may appear rather strange and startling, but the next table will prove more so to Santa Anans, and especially the housewife who deals with a strange house-to-house canvasser, thereby frequenting the peddler's door.

These crooks, both men and women, often work through a city as peddlers or canvassers selling to the housewives usually a little cheaper than the legitimate merchant, thus making the unsuspecting housewife "fall" for their bait.

While bargaining the crook gives the house the "once-over" and if he doesn't get away with something right then, the house is spotted and he makes a return at a later date much to the loss of the person who bought his wares.

### Burglary Losses.

Year	Amount
1913	\$86,945
1914	128,588
1915	2,964,790
1916	5,680,305
1917	10,800,803
1918	11,500,000

There is another logical reason why people should shun this house-to-house trading, and that is because one has absolutely no comeback on the purchase. The victim has the goods, the peddler or canvasser has the cash and that ends it. If the bargain turns out to be a poor one, as it frequently does, the buyer has no recourse, but is simply stung and must suffer accordingly.

Merchants' Prices.

On the other hand if one buys from a legitimate merchant and there is any cause for adjustment the merchant can be found, and thus the purchase not only becomes a source of satisfaction but the buyer helps the community by trading at home.

As secretary of the Merchants and Manufacturers' association, it is my business to keep in touch with the merchants of Santa Ana and I'm in a position to state, and to state truthfully and without fear of contradiction, that the merchants of Santa Ana have a variety and a quality of merchandise at prices that are comparable to the merchandise of any city within the state.

In the official report of the city clerk for the fiscal year 1923-24 the city received in commercial licenses approximately \$23,000. This is the amount paid by merchants and business men of Santa Ana for the privilege of doing business here. Furthermore there are other taxes that the merchants pay and are glad to pay to help make this city beautiful and liveable, another strong reason to impel the progressive, home-loving citizen to trade at home. All these facts and figures must imply, to every man and woman who make their home here and who love our climate, our schools, our churches, our institutions and all that make this city worth while, that these things are made possible only through cooperation.

To those who do the buying, I would most emphatically say, whether it be a loaf of bread, a

## GREATEST OF S. A. TOWN BY CHECK HOLLYWOOD MAN ERECTED HEAD OF CORP.

BY NORMAN HENDERSON

Picture a town with a Main street three miles long and with a cross-street another three miles long, and with 300 downstairs business firms, exclusive of office buildings, on one of these streets and 150 ground floor business houses on the other street, to say nothing of the many other business streets that naturally would be a part of such a metropolis.

Then picture the size of a residence district that such a business district would support. If you have judged carefully by these directions, you must be thinking of one of the principal cities of the United States.

And you are.

The description fits Santa Ana exactly to the measure.

If you do not believe it, hop into your automobile and drive to the entrance of the automobile tourist park on North Main street. Take a good look at your speedometer and then start counting the business houses on both sides of the street, ground floor only, until you reach the south city limits. Your speedometer will register exactly three miles from the first store to the last on Main street, and your count will be 143 stores.

But Fourth street is really Santa Ana's "Main" street, because there are twice as many stores and shops in the three-mile stretch of Fourth street that is paved. To be exact, it is two and one-half miles from the first business establishment on Fourth street, near Maybury street, to the last firm on the paved street at Artesia street, and there are 293 business houses, not including the dozens of upstairs firms and offices on both sides of Fourth street.

And last week's population report put Santa Ana over the 28,000 mark.

Is it any wonder Santa Ana's business district is expanding?

## KIWANIS GUESTS AT NEW THEATER

Wherever members of the Santa Ana Kiwanis club met today they discussed one of the finest residences in Sedalia, and he and his family will permanently forsake that fine home and will come here and establish themselves in a new home. Chasoff will devote himself here exclusively to the business of our company.

Chasoff is a heavy stockholder in our company, said Sherer. "He is the owner of one of the finest residences in Sedalia, and he and his family will permanently forsake that fine home and will come here and establish themselves in a new home. Chasoff will devote himself here exclusively to the business of our company."

IRVINE, Feb. 14.—Paying a tribute to Abraham Lincoln, the local grammar school here presented a pleasing program Tuesday afternoon. The program was as follows:

Song, "America," entire school.  
February Birthdays—Miss Northmore's classes.  
Gettysburg address—Dorothy Ahern.  
Song, "America, The Beautiful,"—Entire school.  
"To the Confederate Dead," Lillian McDonald.  
Song, "Hymn of the Republic," entire school.  
"Memory Gems," Mrs. Gardner's classes.  
Song, "Columbia, the Gem of the Ocean," entire school.  
Mr. and Mrs. Charles Spalletti.  
Mr. and Mrs. A. C. Newell, Mr. William Whitehead and son William jr, spent Monday in Santa Ana.

Mr. and Mrs. Bert Keubler and son, Chester, and Miss Lillian Ahern of Anaheim, visited at the home of Mr. and Mrs. P. Ahern Sunday.

Mrs. Cook Russell motored to Santa Ana Monday.  
Mrs. J. A. Ross and family and Miss Lillian McDonald spent Saturday in Santa Ana.  
Herbert Gerrish was delivered a new Durant 1924 coupe last week. Lester Clark was delivered a new Chandler last Friday.

A slight accident occurred Sunday morning about 10:30 when a Ford sedan running at a too high rate of speed turned over on the crossing. Although the car was slightly damaged, no one was injured. Manager Arthur Trickey announced to the many baseball fans who gather to see the weekly ball conflicts on the local diamond that next Sunday the game with Anaheim will be played on the Anaheim high school grounds.

**Pimpily? Well, Don't Be**

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but the action is gentle and safe, instead of severe and irritating.

No one who takes Olive Tablets is ever cured with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 50c.

The only thing the Merchants and Manufacturers' association can do for the citizens of Santa Ana is to ask their cooperation in keeping this kind of thing out of this city and that is why they are urged to spurn the strange peddler and canvasser. Trade with the dependable merchants permanently situated. This is not an ulterior or selfish motive but rather an appeal to the best that is in all Santa Anans to do their share in every way to build and support this "home town."

Potatoes, \$2 cwt. We deliver. 5th and Broadway.

Best tennis rackets—Hawley's

pair of shoes, some dry goods or a suit of clothes. Remember this—a dollar spent elsewhere is spent, but a dollar spent in Santa Ana is invested and will turn over many times to the benefit of all.

Just recently there came to the attention of the Merchants and Manufacturers' association a warning about a solicitor for silk hosiery who takes 10 per cent of the amount of the order and then disappears. The San Diego Merchants' association also has been fighting this crooked class of solicitors.

The only thing the Merchants and Manufacturers' association can do for the citizens of Santa Ana is to ask their cooperation in keeping this kind of thing out of this city and that is why they are urged to spurn the strange peddler and canvasser. Trade with the dependable merchants permanently situated. This is not an ulterior or selfish motive but rather an appeal to the best that is in all Santa Anans to do their share in every way to build and support this "home town."

## Tourists Would Buy Homes Here Were Jobs Available

"Get us a job and we'll buy a home here."

This statement was made by fully half of the fifty automobile parties which registered at Santa Ana's tourist park during the past week, according to L. A. Ludwig, custodian, today.

Ludwig said virtually all tourists expressed themselves as better satisfied with this city than any they have visited in their travels.

"They really want to stay here," he explained, "and they usually have enough money to start building if they could secure positions in Santa Ana."

Mrs. James O'Hara of La Grande, Ore., today remarked: "I have never enjoyed a winter so much as the past spent in this delightful Santa Ana climate."

Mr. and Mrs. O'Hara and Mr. and Mrs. A. Wright have just received word that there is two feet of snow at their La Grande homes right now and the temperature there is about ten degrees below zero.

"I know I'll have to plow through bad weather as soon as I leave this paradise," stated Grant Hall of Denver, "so I wish it would rain while I'm in such an enjoyable place."

"I really haven't sufficient vocabulary properly to praise Santa Ana," was the comment of C. O. McAnally of Altus, Okla.

R. J. Altis of Boulder, Colo., thought so much of Santa Ana when he visited here four years ago that he says he could not rest until he returned this winter.

"And I'll be back again soon," he yelled, as his car rolled out of the park on its homeward journey.

## Orange County's Plans For Water Conservation Bring Approval from Gov. Pardee

A letter received today by the editor of The Register from Governor George C. Pardee of Oakland strongly commends the movement that is gaining headway in Santa Ana and Orange county for complete conservation of the flood waters of the Santa Ana river.

Dr. Pardee is a member of the Oakland Kiwanis club, and is chairman of the public affairs committee of the district of California and Nevada, Kiwanis International, of which committee the editor of The Register is a member.

In the course of his letter to Mr. Baumgartner, Dr. Pardee says: "It is good to hear that the Santa Ana Kiwanis club is interested in conserving the flood waters of the Santa Ana river, instead of permitting those waters to continue to go to waste into the ocean which has plenty of water, while Orange county hasn't any too much, to say the least. 'Not one drop shall ever flow into the sea' is a mighty good slogan in a rich county like yours, where every drop that doesn't flow

into the sea is worth big money. "When I first saw the Santa Ana river, fifty-five years ago, it happened to be a raging flood. A couple of weeks later, I walked across it dryshod—all those millions of gallons of muddy water had been wasted into the ocean. There was no city of Santa Ana then—there wouldn't be any such city now if no water had been put upon the land. And only when 'not a single drop shall ever flow into the sea' will your city and the surrounding country achieve their possibilities."

"Floods are costly—Olive, Anaheim, Bolsa Chica, Westminster, Newport Bay knows that. Conservation means money in the bank—your orange groves, where only mustard grew when I first saw your country, prove that. And the more water your people conserve, the more money there'll be in your banks. 'Not one drop shall ever flow into the sea' means much to Santa Ana and Santa Anans. Do it now. You're wasting time AND money!"

## STREET LIGHTING WORK IS RUSHED

The new ornamental lighting systems on East and West Fifth street and West Fourth street will be completed within approximately thirty days, according to a statement today by W. G. Knox, city engineer. The systems are being installed at a cost approximating \$54,000.

The Underground Construction company, of Pasadena, the contracting firm, has been pushing the work rapidly. Knox said. The conduits have been installed and installation of concrete bases for the lighting standards now is under way. The bases are being built in the location of each post and are not manufactured blocks.

"All material needed for the construction either is now on the job or is available in Los Angeles," Knox said. "Nothing should delay the completion of the systems."

## ORANGE PACKING HOUSE FOR GROVE

An orange packing plant with a capacity of four cars daily will be a valuable addition to the industrial section of Garden Grove, and today the ground was being broken for the erection of this new packing house for the Garden Grove Mutual Orange association.

The building will be constructed of brick and hollow tile. The new packing house will be rushed to completion in time for the Valencia season, which probably will open the latter part of April.

According to W. B. Merchant, secretary-manager of the organization, the building, 85 by 120 feet, will cost in the neighborhood of \$26,000. E. M. Mahl, who built several of the government buildings in Washington, D. C., will be superintendent of construction. No general contract will be let, Merchant said.

The new building will allow for the employment of several more packers, giving employment to about twenty Garden Grove people.

## EXPECT 150 AT OLDER BOYS' SESSIONS

With indications that more than 150 delegates will be in attendance with the Rev. William E. Roberts, pastor of the First Presbyterian church scheduled to deliver one of the principal addresses, and with group conferences arranged for many of the respective divisions, plans were virtually completed by Y. M. C. A. workers here today for the Orange County Older Boys' conference at the First Baptist church Saturday, February 16.

"This meeting," said T. P. McKee, member of the reception committee, "will be held under the auspices of the Orange County Y. M. C. A. and will attract workers and members from every city in the county."

"Accordingly, to present plans registration of delegates will be in order at 11 a. m., followed by delegation meetings at noon.

"At 12:30 lunch will be served in the dining room of the First Baptist church, with J. A. Cranston, superintendent of Santa Ana schools, serving as toastmaster. Speakers will include Northrup Ellis, Orange; Henry Hodges, Anaheim; William Travers, Fullerton, and the Rev. William E. Roberts of Pasadena."

"Between 4 and 6 p. m., R. R. Russick, physical director, will conduct a recreation tour of the new Y. M. C. A. building, and the session will close with a banquet starting at 6:30 p. m. Charles C. Chapman of Fullerton will serve as toastmaster. The Rev. Otto S. Russell, M. E. Beebe, Robert Young, L. Y. Shaw and others will deliver brief addresses at the evening meeting."

## Established Oil Firm Enters Brea

One of the oldest of the independent oil operators on the Pacific coast is preparing actively to enter the Brea oil field, according to Brea advisers. This company is the J. J. Mohawk Oil company, which has been actively engaged in drilling and developing the Santa Fe Springs field for two years, and more recently is engaged in work at the Torrance-Lomita field.

**Don't Fuss With Mustard Plasters!**

Musterole Works Without the Blister—Easier, Quicker

There's no use in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is also made in a milder form for babies and small children. Ask for Children's Musterole.

## GLEE CLUB OF UNIVERSITY TO APPEAR

GARDEN GROVE, Feb. 14.—The University of Redlands Men's Glee club will appear in concert at the clubhouse in Garden Grove next Saturday, Feb. 16, at 8:15 o'clock. There will be a small admission charge.

It is of special interest to the whole of Orange county, for this will be the only entertainment given by the well known club this season as its annual concert tour is scheduled for the northern part of the state.

Under the direction of Prof. W. B. Olds, dean of voice and late of Columbia University, the club of twenty-five members, has perfected a well balanced and varied program.

The numbers include songs by the club, some of which are compositions or arrangements of the director, Mr. Olds; solos, both vocal and instrumental; trios and other combinations of instrumental or vocal talent, and a general insight into the spirit and life of the college.

The reputation of the men's glee club of the University of Redlands is nation-wide as it was this organization which was chosen from all other California groups by Santa Fe officials, three years ago, to entertain in the clubs of that railway en route from Los Angeles to Chicago.

## Asks Better Jobs For Ten Officers

LOS ANGELES, Feb. 14.—Recommendation for appointment of ten assistant detective captains selected from eligibles was made to the police commission today by Chief of Police Vollmer, who abandoned civil service lists in choosing the new officers.

Vollmer asked promotion for the following men on basis of service and personal merit: James P. Bean, William Cahill, W. Glenn W. Longuevan, Joseph Taylor, H. Herman Cline, T. F. O'Brien, George E. Smith, Charles Vernand and Jesse A. Winn.

## TROUBLED WITH YOUR STOMACH?

USE SMITH BROS'. M. A. C. THE GUARANTEED TREATMENT

If you want genuine, lasting relief from stomach distress, go to your druggist and obtain a bottle of M. A. C., the guaranteed stomach treatment. Take a spoonful after each meal, as directed, and see how quickly it gives relief.

The very first dose should convince you that this medicine is exactly what you need to forever end sour stomach, heartburn, nausea, excessive gas, bloating, indigestion or nervous dyspepsia.

M. A. C. invigorates the stomach glands, promotes the secretion of gastric fluid and cleanses the entire digestive system of foul, irritating waste matter. It gives you new appetite, new energy, new interest in life. Sick headaches, dizziness, constipation or other symptoms of disturbed digestion will vanish completely when your stomach is restored to proper working order.

Remember, M. A. C. is sold on an absolute guarantee of money back if the first bottle fails to relieve any case of stomach distress. Oh, a bottle today. Price \$1.25. C. S. Kelley Drug Store will supply you. (Mail orders accepted.)

## Huntington Beach Fields Show New Activity in Week

Huntington Beach reported much activity in the oil field this week and while only three new rigs have been set there is talk of a dozen or more being built immediately, it was learned. Men are again being put to work and the field promises considerable

## Santa Ana, Fullerton Fives Meet Tomorrow

### MANY STARS IN AQUATIC CARNIVAL

Crack County Swimmers to Face Fast Field In Big A.A.U. Meet at H. B.

With ten individual cups to be awarded to the winners of various events at the big A. A. U. Swimming meet tomorrow night at the Huntington Beach plunge, the aquatic stars of Orange county today were preparing to pit their skill against many of the best swimmers in the world. The affair will begin at 8 o'clock.

Duke Kahanamoku, world's short distance champion, who will represent the United States at the Olympic games again this year, will be present and will furnish several features of the evening including a trial against time. John Kool, another Hawaiian star, will also be present. Marie Curtis, Pacific coast champion; Ralph Summerall, Pacific coast diving champion; Olive Hatch, L. A. A. C. star; Dorothy Megowan, Pacific coast champion girl diver; Fannie Burt of the L. A. A. C., and many others will be seen in action at the plunge.

Several county performers have entered in the different events. Miss Clarice Higgins, 14-year-old star swimmer of Huntington Beach, has been making the length of the tank, 26 yards, in 16.4 seconds. Miss Mary Scheffner has also been making some good time over the distance. Eugene Belshie, 15-year-old lifeguard of Huntington Beach, has been making the length of the tank in 13 seconds and has been covering the fifty-yard strip in 20 seconds flat.

Another Orange county boy will be seen in action in the person of Robert Jensen of Anaheim, who is swimming under the L. A. A. C. colors.

Lucille Ogden, 4-year-old wonder swimmer, will give an exhibition swim during the evening. She has been swimming the 26 yards in 1 minute and 5 seconds.

The cups will be awarded to the winners on the dance floor at the Fremmen's annual ball immediately after the contests.

### SPORT FLASHES

Pomona college basketball five overthrew the anticipated order of things in Redlands last night and defeated the Redlands team in a fast game by a score of 15 to 13. Best playing of the evening came in the second half, after the first period closed 8 to 5 in favor of the visitors.

Occidental cage men went down to a 38 to 10 defeat at the hands of the Whittier five last night in the Quaker city. The game was a walkaway for Whittier from the start, with the victors ending the first half 21 to 0.

The Southern branch cubs walked away from Caltech in last night's game, played at Pasadena, taking the contest 46 to 24, increasing the S. B. U. C. lead for the conference championship. Breese was the star for the victors.

Buy your potatoes by the sack, save the difference. We deliver. 5th and Broadway.

### Ring Czars Hop On Tx Rickard In Weight Case

NEW YORK, Feb. 14.—With a resounding smack, the first swing of the newly reorganized New York Boxing commission landed flush on the whiskers of the well known Tex Rickard.

The punch not only yset Rickard back on his heels, but it knocked the whole town dizzy and sent the wolves whimpering to the timbers. For failing adequately to notify the public that George Marks was four pounds overweight and that the Pancho Villa-Marks bout last week could not involve a championship, Rickard was ordered to accept the penalty of forfeiting one fight card at Madison Square Garden.

### CARD FIVE UPSETS TROJANS, 31 TO 23

McHose Battered About As Chip In Storm But Is High Point Man

LOS ANGELES, Feb. 14.—Stanford goes back to Palo Alto today a better basketball team than the University of Southern California, having shown their superiority last night, 31 to 23. Several thousand extra fans hung around the pavilion vainly seeking to get in.

As far as games were concerned the two colleges split even, but the Cardinals demonstrated in the second of the two-game series that it was the better five in every department of basketball.

Ken Boyer started the wild evening off with a couple of baskets that served to incite the visitors to the highest pitch of ferocity. Nevers, big Cardinal forward, and McHose then staged an offensive that completely baffled the sluggish Trojan guards.

Nevers, however, was taken out of the contest early in the second half because of personal fouls. It was then that McHose, whose shifty, clever floorwork merits him a position on the all-coast team, took his task to heart. The little Card captain was high point man with 16 counters, in spite of being battered about the floor like a chip in a storm.

The half ended 11 to 11, but when the second whistle blew Coach Andy Kerr put his polished technique into action, enabling his men to keep a couple of points ahead the rest of the game.

Stanford (31) U. S. C. (23)  
McHose (16) F. Rice (15)  
Nevers (7) F. Boyer (15)  
Steele (3) C. Gerpeide  
McBurney (2) G. Dorsey (2)  
Shipkey (3) G. Hawkins  
Substitutions — For Stanford: Steffan for Nevers; for U. S. C.: Wingard for Rice. Officials—Davis, referee; McCord, umpire.

### Fights and Fighters

SAN FRANCISCO, Feb. 14.—Five knockouts featured the card at National hall last night. Tim Callahan knocked out Johnny Nunnies in the main event.

OAKLAND—Harry Greb was on hand to watch the auditorium show last night. Vic Foley outboxed Bud Hamilton in the main event.

SAN DIEGO — Sammy Sandos won a hairline decision over Johnny Lucas, of St. Louis, here last night in a clever boxing match.

### S. A. BALL PLAYERS TO LEAVE THURSDAY

Tyrrell, Cutting Off For Trial In Big Show One Week From Today

Exactly one week from tonight, Hillard ("Toughy") Tyrrell and Ed Cutting, Santa Ana semi-professional ball players, will be peering out of Pullman windows en route to the training camp at Mobile, Ala., of the St. Louis Browns.

The Santa Ana duo, in company with George Harold Sisler, manager of the Browns; Jimmy Austin, coach and former skipper; Tony Rego, Los Angeles catcher; George Blacholder, big Garden Grove pitcher who belongs to St. Louis but hauled for Terra Haute and Bloomington in the Three I league last season, and a young recruit from Los Angeles, will leave for Mobile next Thursday morning at 9 o'clock.

Cutting yesterday noon returned from Sacramento, where he has been visiting with his parents, and with Tyrrell motored to Laguna Beach for a conference with Sisler, their new boss.

The St. Louis party should reach Mobile in time to begin light workouts with the advance guard the following Monday. At that time, Cutting and Tyrrell will get their baptism as to the way things are done in the big show.

Both Santa Ana boys are determined to show enough class that even if they aren't kept on the big leagues they will be "farmed" to a lesser league with the Browns holding a string on them and Sisler and Austin, both strong for young players, will give them every opportunity to make the grade.

St. Louis will open its league season April 15 at Chicago and proceed from its series with the White Sox to Detroit for a few brawls with Ty Cobb's hired help.

### De Palma's Track Record Shattered

LOS ANGELES, Feb. 14.—Ralph De Palma, who has been having everything his own way at the Asco "speedway" from all appearances will have to make better time Sunday than he has ever made before or he will be eating somebody else's dust.

In their practice spins yesterday afternoon, both Fred Horey and Fred Lickelider went under the track record of 31 seconds held by De Palma. Lickelider is credited with having clicked off one lap in 30 seconds, a full second under the Italian daredevil's time. Fred Horey, after a thorough overhauling of his Deussenberg, got around the course in 30 4-5 seconds.

### Oxy Relay Teams To Run in Relays

LOS ANGELES, Feb. 14.—Occidental college will be represented at the Pennsylvania and Drake University relay carnivals in at least two relays and several special events, according to an announcement made by Coach Joseph Pipal.

Pipal believes that in his 880 and half-mile teams he has material that will make a very creditable showing for the school.

### Murchison Equals Indoor 100 Mark

NEW YORK, Feb. 14.—Loren Murchison of the Newark Athletic club, America's premier indoor sprinter, equalled the world's record by running 100 yards last night in ten seconds in the Sam Houston games at the 22nd Regiment armory. Murchison ran away from Bob McAllister, former Metropolitan champion, and Bennie Wefers, Jr. Jole Ray, Illinois Athletic club, America's hope for the Olympic middle distance won the 1500 meters race in 4:04 4-5, with his teammate, Ray Watson, second.

ROBINS RELEASE SCHMANDT  
NEW YORK, Feb. 14.—Ray Schmandt, first baseman, and George Smith, pitcher, have been released to the Indianapolis American Association club by the Brooklyn Robins. Smith was released outright and Schmandt under option. Infielder Mullen and Outfielder Hickman were released to the Springfield, Eastern league club.

INDIANS TREK SOUTH  
CLEVELAND, Ohio, Feb. 14.—Trek of the Indians south will begin tonight when 18 pitchers under Scout Jack McAllister will enter for Hot Springs, Ark., for three weeks' workout before the whole team gathers at Lakeland, Fla.

NEVER WITH WINNER.  
Walter Johnson, veteran Washington American pitcher, has signed a contract for the coming campaign. Johnson is the oldest hurler in point of service in the majors. He's the dean of them all. Johnson came to the Senators in 1907. He has seen 17 consecutive seasons with the same club. And unlike most of the other famous nant-winning outfit, stars he has yet to be on a pen-

W. P. Fuller & Co., paints, varnishes, plate and window glass, mirrors, 400 W. 4th St. Phone 881.

### JUST A LITTLE GIRL SKATE CHAMP TRYING TO GET ALONG

Gladys Robinson, champion woman skater of Canada, recently broke record for 1000 yards at Onota Lake. This unusual action picture shows her at a difficult angle.

### ORANGE CAPTURES DECIDING LEAGUE GAME FROM H. B.

Coach H. M. Berg's Orange high school five today held the championship of the Orange County basketball league and with it the right to enter the semi-finals for the Southern California championship following its 28 to 9 victory over Huntington Beach at the oil city yesterday afternoon.

### OLD TIMERS BATTLE TO DRAW AT BEACH

Al McCoy and Jack Downey Fail to Please; Ward, Dorgan Also Even

FIGHT RESULTS.  
Al McCoy, Jack Downey—draw.  
Battling Ward, Patsy Dorgan—draw.  
Kid Parker won from Bud Jewett, decision.  
Marty Kane, Ralph Walker—draw.  
Young Dago, Young Tate—draw.

Al McCoy, one time claimant to the middleweight championship of the world, and Jack Downey, whose chief claim to fame is that he outpointed Jack Dempsey when the latter was a pork-and-beaner, fought a slovenly draw in the main event at the Huntington Beach arena last night.

Battling Ward and Patsy Dorgan fought a plop of a draw two weeks ago but their even-tempered verdict in the semi-final contest last night was anything but thrilling. The preliminary bouts were better. Kid Parker made Bud Jewett acquainted with the floor several times and earned a popular decision. Ralph Walker slapped Marty Kane around the ring pretty much as he pleased and should have had his dukes raised. He got a draw. So did Young Tate and Young Dago who whizzed through a rapid eye-opener.

Did Sarazen's Short Stature Decide Match?

Is height a handicap in golf? Gene Sarazen, short and stocky, recently defeated Arthur Havers, long and angular, in a special 72-hole match on the coast.

Sarazen had almost perfect control of his shots from toe to green. His compact style seemed to reduce the possibility of incorrect hitting to a minimum. Havers, on the other masbie niblick, was in frequent trouble. His timing was far from perfect. His longer arms, legs and body seemed to place an added burden on his control.

At any rate his style lacked the simple compactness that marked Sarazen's play and he was rather decisively beaten by the young Italian.

### POLY MIDGET SQUAD TIED FOR TITLE

Covington's 110-Pounders Must Trim Old Rivals To Stay In Fight

For the first time since the two schools became athletic enemies, a varsity encounter between Santa Ana and Fullerton will rank second in interest tomorrow afternoon when the basketball quintettes of the rivals fuss and fume in the Redlegs' back yard.

The 110-pound team game will begin at 3:30 o'clock. The Class B teams of Fullerton and Santa Ana were to clash at the Poly courts this afternoon.

The chief concern, as far as local athletic followers are involved, will be the 110-pound skirmish which will be the preliminary contest. Santa Ana's midget five, tied for the Tri-County league title, must win its game from the Fullerton 110-pounders to have a chance for a play-off and the subsequent opportunity of a Southern California gonfalon.

Varsity Fives In Cellar  
Both varsity squads are way down in the rut and the outcome will have no bearing on the championship. A victory will give Poly its first league win in two years and enable it to get a tie for the cellar title instead of occupying the berth unmolested.

Coach Ed Covington believes his midget aggregation will "take" the Fullerton lighties and then turn around and battle its way to the top of the heap over the other two tied schools, Whittier and Pasadena. Santa Ana lost its only 110-pound game to Whittier. The score was 9 to 8. Pasadena defeated Whittier and then the local decisively outpointed the Crown City midgets.

Covington's little men have worked hard all season and they know more about fight than the varsity quintette. The team lines up as follows: Morris Strong and Raymond Smith, forwards; Lorry Walbridge, center; Morris Davis and "Blondy" White, guards; Robert Nelson, substitute.

Fullerton has the edge in the dope for the first string contest but Covington hopes his men will find the hoop tomorrow with more accuracy. The glaring fault of the Santa Ana five all season has been its inability to work the ball close enough to the basket to get good shots.

With their innate desire to trim the ancient foe, Poly fans figure that the Santa Anans may come to life and work as a unit against the Redlegs. The probable lineup follows:  
Santa Ana Pos. Fullerton  
Bowe F. Richards  
Golden F. Hancock  
Lacy C. Dowling  
Cook G. Yorba  
Burns G. Oswald

The line-up:

Orange Hunt'n. Beh.  
Brice (2) F. Terry (2)  
Durrell (8) F. Russell  
Nichols (8) C. Nichols (5)  
Spencer (6) G. Nash (2)  
Barr (1) G. Brewster

Substitutions: Orange, Woodruff for Brice (1); Sufferer for Durrell; Brubaker for Spencer (2); Huntington Beach, Daniels for Russell; Fearon for Nash.

Farmers' co-operative organizations throughout the country did a business totaling approximately \$2,000,000,000 in 1923, United States Department of Agriculture estimates.

### FREE TO PILE SUFFERERS

Don't Be Cut—Until You Try This New Home Cure That Anyone Can Use Without Discomfort or Loss of Time. Simply chew up a Pleasant Tasting Tablet Occasionally and Rid Yourself of Piles.

### LET ME PROVE THIS FREE

My internal method for the treatment of piles is chronic or acute, whether it is chronic or acute, whether it is occasional or permanent, you should send for this free trial treatment.

No matter where you live—no matter what your age or occupation—if you are troubled with piles, my method will relieve you promptly.

I especially want to send it to those apparently hopeless cases where all forms of ointments, salves, and other local applications have failed.

I want you to realize that my method of treating piles is the one most dependable treatment.

This liberal offer of free treatment is too important for you to neglect a single day. Write now. Send no money. Simply mail the coupon—but do this now—TODAY.

# "SIX-FIFTY!"

Young Man, Your \$6.50 Buys One of NINE Newest Oxfords at RICE'S

Select Yours! from this list:

- Light brown calf. Plain stitched model.
- Light brown blucher cut, "trouser crease", soft toe.
- Black calf, square toe, plain stitched model.
- Dark brown calf, new V-shape tip, plain model.
- Black calf "trouser crease" with brass eyelets.
- Dark brown calf, pinked edge with heavy stitching.
- Light brown scotch grain blucher cut, brass eyelets.
- Light brown sport model with dark brown trim, round toe.
- Black calf with upper quarter in genuine scotch grain, narrow soled last.

—and you can't go wrong on style, fit or wear on any of these. Fred Rice won't let you!

Here are oxfords that look like a big ten dollars' worth—and they are—at a saving of three fifty. Think of it!

About half of these new models are genuine Geo. F. Johnson's, and every one of the nine is a quality oxford priced attractive enough to make a man think twice.

Our complete line comprises quality footwear for as little as \$4.50—and up to \$10.

## EVENING SALUTATION

A longing born of fear and promises.  
A wild desire, a hope that heeds no bounds.  
A ray of moonlight struggling through the trees  
Startles us like a phantom; on the ground  
Fall curious shades; white glory spreads around;  
The wood is past, and tranquil meadows wide,  
Bathed in bright vapor, stretch on every side.

## KILL THE GROUND SQUIRRELS

Persistence and poison used together are a means of getting rid of ground squirrels. It takes a good deal of both.

A few years ago a campaign was entered upon in this county that resulted in cleaning large areas of the county of the squirrel pest. But here and there enough squirrels remained to start the growth of a new crop, so that in places squirrels are again boasting of rapidly growing populations. It is one population growth not due to the arrival of tourist flivvers, and it is not a desirable growth.

It is time for another roundup of the squirrel. El Toro ranchers, realizing that a few squirrels can do a good many dollars damage in a year, are ready to start on a campaign of extermination. Here's strength to their efforts, and their example ought to be taken up in every portion of the county where a single ground squirrel remains alive.

## THE THREEFOLD PLEDGE

On a street corner in a big city the other evening a man approached a newsboy, wearing the insignia of a Boy Scout Tenderfoot, to buy his evening paper, exactly at a quarter past eight o'clock. Instead of thrusting a paper instantly into the man's hand the boy hesitated just long enough to give the Scout salute. Then he proceeded to business as usual.

While that boy was giving the Scout salute, hundreds of other boys in other isolated situations were doing so, too, while 3,500 Boy Scouts in uniform saluted at a gathering in one of the local churches. They were all recognizing the fourteenth anniversary of the founding of the organization in this country by renewing their pledge to "keep themselves physically clean, mentally awake and morally straight."

There are many tragic stories of boy bandits and hold-ups in the columns of our daily newspapers. Sometimes a few grown-ups give way to complete pessimism and declare that all the youth of the present day is going wrong. But such people are forgetting that all the normal, healthy activities of boys and girls do not get into the paper, simply because they are so commonplace as not to be news and so numerous as to take up more space than papers have room for or readers have patience for. An occasional report of such an event as this special Boy Scout celebration serves to remind the thoughtful that there is an army of likable, serious boys and girls growing up to be citizens quite as decent and intelligent as their parents, and perhaps a little better prepared than the latter for the duties of citizenship.

## THE COFFEE CAN BANK

Much has been said about the loss of money in unwise investment, but little about losses due to an unwise place of deposit. Here is a story from the recent news.

A bachelor, 60 years old, working as a day laborer, had saved his money for years to provide for his old age. He had \$700 in a coffee can under his dresser. The other evening, when he returned from work, his little house was in confusion and the coffee can was gone with all its contents.

It is but one of thousands of cases. It is cruelly hard for many people to learn that no banking done in one's own home is safe. If burglars do not find and loot the treasure box, the old teapot, the tin can, the wallet, the sock, the bureau drawer or the secret nook in the wall, fire may destroy it. All the time the savings are accumulating, the dollars would be not only safe but fruitful if they were placed in a bank at interest.

## THE WORLD AROUND

It is now possible to cover the North American continent with any radio program. This very thing was done on the night of February 8.

It was accomplished by the co-operation of wire and wireless telephony on a scale never before attempted. Seven powerful radio stations located in Havana, Washington, D. C., Providence, R. I., New York City, Chicago, Oakland and San Francisco were linked, by long distance wires, with 50 cities in this country and Canada. More than 6,000 miles of telephone wire were used and 22,000 miles of additional lines were held ready for emergency. All of the broadcasting was simultaneous, and was directed by Gen. John J. Carty, vice-president of the Bell Tele-

phone system, who was presiding at a gathering of telephone and radio men in a Chicago hotel.

It gave a thrill to millions of radio fans to hear the voice of Gen. Carty, at Chicago, addressing his half a hundred friends and subordinates within a radius of 2,000 miles, and to hear his salutations answered instantly and clearly by all the different voices from Havana, up through the Atlantic coast states to Canada, thence across the country to California. Music was played from various stations, and the performance ended with "Good night, Chicago" from all the other cities.

That was a foretaste of the perfection and completeness that radio transmission is sure to attain within a few years. It should be feasible soon for any important man to address the whole world, with listeners in every land hearing his message simultaneously, word by word, as it falls from his lips.

## Drop In Lynching

Sacramento Bee

There were fifty-seven lynchings in this country during the year 1922. In 1923 there were twenty-eight. There should, of course, have been none at all in either year or in any other year, but it is at least encouraging to see a national disgrace become only half as disgraceful in so short a time.

A variety of probable causes for the decrease are assigned by a variety of newspapers. The most important seems to have been a general stiffening of backbone on the part of officers of the law, since the record shows forty-six cases in which attempted lynchings were prevented by constituted authority. Another factor has been the very general exodus of the Negro from the South. Lynching is not exclusively a southern specialty, but it has generally flourished there with greater luxuriance than elsewhere.

Lately the Negro, grown tired of being lynched, has begun to seek other and less threatening fields of action. Consequently his worth has become more apparent to those with cotton crops to harvest. You can not lynch your Negro and work him, too.

But, though indirect, the biggest cause of all probably has been the campaign of public education which has been carried on by the press of the country. Nobody with any sense or decency is in favor of lynching if he is made to think about it. The crime is as much a product of thoughtlessness as of cruelty; people join in these orgies who are heartily ashamed of it afterward—when they have time to think.

The proper procedure is, judged by the results, to make them think first. It is to be hoped the campaign is not allowed to drop by the wayside. Cutting the evil in half is much, but it is not enough.

The Bee has said before, and must repeat, that no country can call itself fully civilized as long as it tolerates any lynching whatsoever.

## Such Things Do Happen

San Bernardino Sun

Eighteen years ago every record in the San Francisco Hall of Records was burned, and every property owner was forced to go to the city and get a quiet little title suit to establish the ownership of every piece of real estate in that city and county. Years before that the courthouse in Cincinnati was destroyed by fire, and a similar situation arose. Out of yesterday's news we read in a dispatch from Los Angeles that fire, due to crossed electric wires, did considerable damage in the Hall of Records, but—

Only the fact that previous documents and records were kept in fire-proof safes and steel storage vaults saved them from destruction. Whether or not any of the files were damaged by the heat could not be learned until the receptacles cool sufficiently to permit them to be opened.

If that had happened in San Bernardino, a different story would be told. For our records are in no fire-proof building, there are no fire-proof vaults or safes, and if that blaze ever starts, every record in the building will probably be destroyed. No insurance can guard against it, and no fire department can promise to be 100 per cent effective against a great conflagration. Whether it be with a new courthouse, or with a fire-proof record building on the old site, one thing is certain: the property owners of this county owe it to themselves to provide for the safekeeping of their records, and the fact that they have had no serious fire in the past is not proof positive that we will never be visited by such a calamity in the future. In one way or the other, provision ought to be made at the earliest possible moment.

## Pacific Commerce Growing

Pasadena Star-News

Westward the center of world commerce takes its way. The Pacific Ocean is becoming the leading commercial ocean of the world. The tide of trade has turned from the Atlantic to the Pacific. Dr. Alexander Hume Ford, secretary of the Pan-Pacific Union, makes assertions to this effect. Facts fully warrant Dr. Ford in saying these things. Vast quantities of farm and orchard products grown in Canada and in the western portion of the United States, are sent by water through the Pacific—either via the Panama Canal to Europe or the eastern seaboard of the United States, or across the Pacific to teeming shores of the Orient. China and Japan are steady customers of the United States, and commerce with Oriental countries, across the Pacific, is gaining steadily.

California is the axis of this huge commercial expansion. Through the ports of this state pass enormous quantities of commodities, exported and imported, across the Pacific, or coast-wise via the canal, to and from Atlantic ports. This trade yearly grows. In its continued growth California and the whole Pacific West will be benefited immensely. The ports of this state are destined to become the commercial front doors of the Nation.

## That Body of Yours

By James W. Baiton, M. D.

## A FURTHER WORD ABOUT BUNIONS

In a former article I talked about bunions. That they were really an inflammation of a bag of water, at the junction of the end of the big toe bone with the corresponding bone on the inner side of sole of the foot.

I saw a great many misshapen feet during the examination of recruits, and wherever I saw bunions I asked the chap if he had worn narrow shoes. His reply was "Well you see my foot was a bit wide naturally and I thought a narrow shoe would sort of shape it up better and make it narrow."

It is hard to credit this but it just showed the lack of thought.

Now what actually happens when you wear a narrow pointed shoe?

Why the outer ends of the toes are drawn inward, and the lower ends which meet the sole are thrown outward, and so right across the ball, the foot is actually wider than before.

For instance just take off your shoe and with your hand draw all your toes together to a central point.

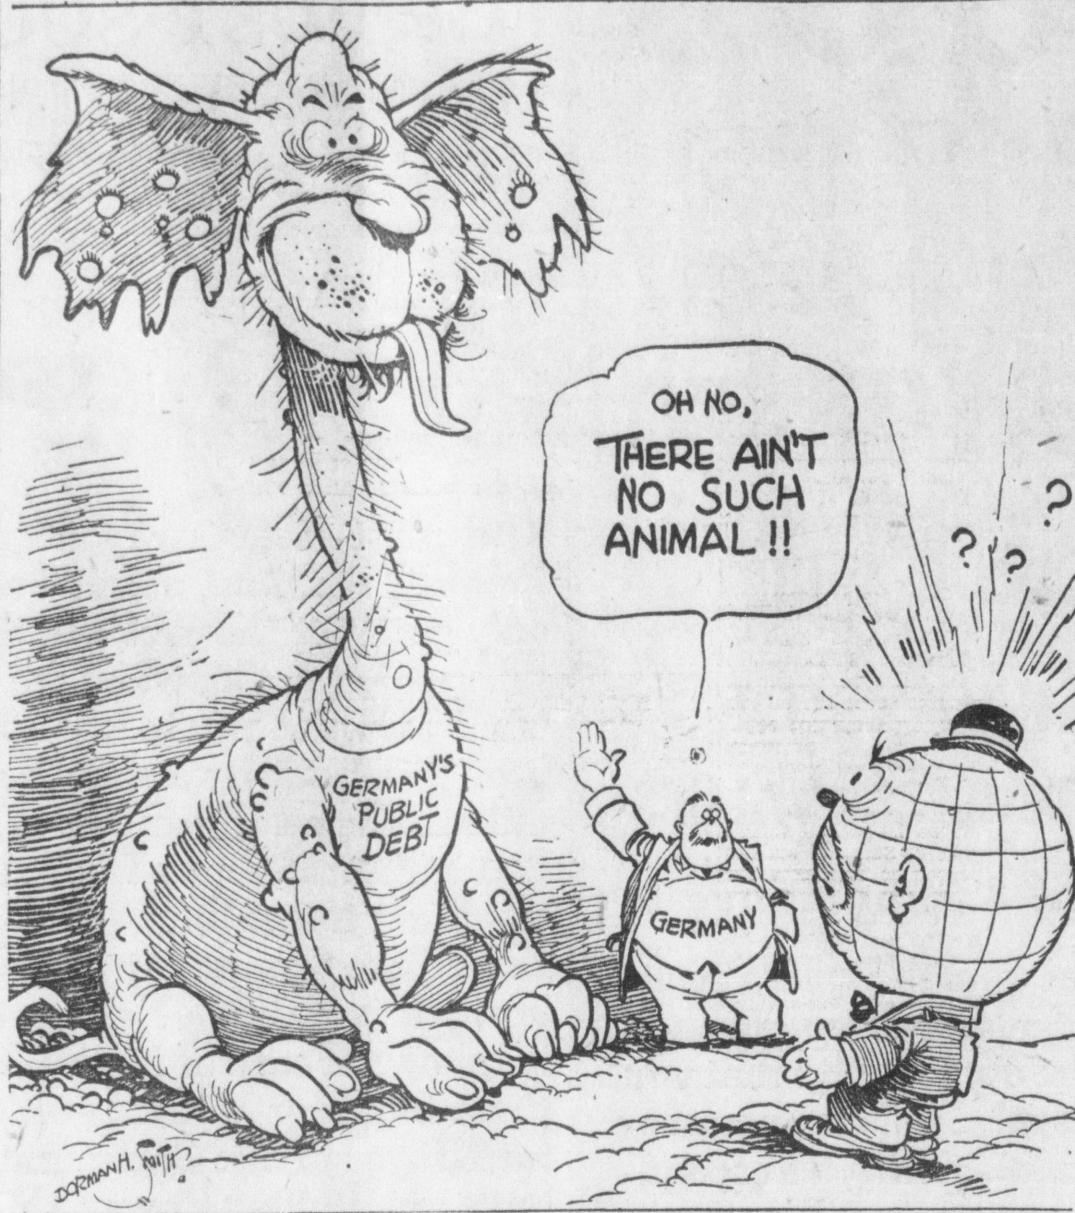

What happens? The lower end of your big toe bone sticks out very prominently, and it is just over this point where it meets the inner bone of sole of the foot, that as I said above, the bag of water is located.

Your tight shoe, you see, thus presses on this bag, and starts that painful thing we call a bunion. Fortunately the dressy shoe of today is of good width, with a well rounded toe. This means foot comfort and freedom from bunions. Should you have a bunion already developed, bathe it well with hot water for ten to fifteen minutes, two or three times a day. Then wear a loose shoe and nine times out of ten the biggest part of the swelling will disappear. Narrow shoes will start all your trouble over again.

Your feet are worth a lot to you, so take care of them.

## And That's That

## Standards

Kansas City Star

A man is finally judged by his moral standards. There can be no material success or personal distinction so great as to wholly overcome marked weaknesses of character. Neither the outward observance of religious form nor the mask of generous patronage can protect the individual against the judgment of society. Indeed, the known hypocrite is more vulnerable than is the person of no moral pretenses.

If this be true of the individual in private life, how much more applicable should it be to the servant in public office. It is true to repeat that a public office is a public trust. But it is deviation from this unwritten law that brings discredit and humiliation to governments and peoples. The public servant who is not scrupulously honest, who does not respect both individual and official standards of action and deportment, injures not only himself, but those he serves. He discredits the system of government adopted by the people. He breaks down confidence in public service generally. He weakens the fabric of society.

But with all its demoralizing effect, it is better to bring to light the derelictions of public officials, and to bring such officials to the bar of judgment, than to cover misdeeds in public service. The oil scandal in Washington is merely revelation on a scale larger than usual. Such revelations are frequent in state and local governments. When they are met in the right spirit they may be made to serve a wholesome purpose. They expose a political disease. It is not sufficient, in the handling of disease of any kind, merely to cure the "case"; the aim constantly should be to prevent or lessen the possibility of its recurrence.

The feverish discussion of the deplorable scandal now claiming the attention of Congress provokes many reflections indirectly related to these exposures.

Morally, it is no worse to sell the power of office directly for a stipulated price, or to accept pay for influence achieved while in office, than it is to advocate measures known to be harmful to the people, to employ false and specious arguments to fool and defraud the taxpayers? Is not the denying of good service for what is regarded as good politics a betrayal of public trust?

The cost of some such betrayals in the past has been so stupendous as to make the "considerations" in the oil deals seem ridiculously trifling. Yet members of Congress do not seem to think much about the practice of playing politics at the expense of the people. There are those in the public service who do not indulge in this practice, but even these do not denounce flagrant indulgences as righteous men would be expected to.

## Worth While Verse

## SWEET AND LOW

Sweet and low, sweet and low,  
Wind of the western sea,  
Low, low, breathe and blow,  
Wind of the western sea!  
Over the rolling waters go,  
Come from the dropping moon, and blow,  
Blow him again to me;  
While my little one, while my pretty one sleeps.

Sleep and rest, sleep and rest,  
Father will come to thee soon;  
Rest, rest, on mother's breast,  
Father will come to thee soon;  
Father will come to his babe in the nest,  
Silver sails all out of the west  
Under the silver moon;  
Sleep, my little one, sleep my pretty one, sleep.  
—Lord Tennyson.

## Tom Sims Says

"Furs," a shopper tells us, "do not grow on fir trees." Staying single during Leap Year will be difficult. Plan now. Look at the price of furniture.

Perhaps the safest way of staying single during Leap Year it to be sure you have no auto.

Hoover is urging consolidation of railroads. If it means longer blankets in Pullman's we favor it. Some things could be worse. Austria has a postal strike. Imagine such a calamity during Christmas!

Everything could be worse. Suppose book agents and insurance men ate onions for breakfast and lunch!

A king job is hard to get and harder to hold after you get it. Russia wants to trade with the United States. We could swap razors for Santa Claus whiskers.

Russians are the people who dance sitting down and sing like a house burning up.

Little Benny's  
Note Book

by Lee Page

After supper last night me and my cuzzin Artie was setting on my front steps just setting there, and Artie yawned about 4 times, and started to close his face to yawn again and I sed, Hay, cut that out, you're making me sleepy.

And I started to yawn too, Artie saying, Did you ever know all you haff to do to make enybudy yawn is jest stand in frunt of them and yawn yourself and then they'll yawn too.

G, I'm going to try it, I sed. And I went rite in the house and up in the sitting room and pop was up there smoking and thinking and I stood in frunt of him and yawned and yawned without pop doing anything but smoking and thinking, and after a while he sed, For Peets sake, are you giving a imitation of a sword swallower without his swords, or wat?

Me thinking, Aw G. And I went in ma's room and she was in there taking things out of one drawer and putting them in another, me thinking, Good nite. And I went in my sister Gladdies room and she was standing in frunt of the mirror doing things to her face, me standing alongside of her so she could see me yawning in the mirror, not having any effect on her for a while and then saying, In case you'd like to know wat you look like, Benny, you look iactly like a fish in a aquarium.

Me thinking, Heck. And I went out on the frunt steps agen feeling insulted, and Artie was still out there saying, Did they do it, did they do it? and me saying, Aw shut up, my jaw hurts.

Wich it did.

## IN THE LONG AGO

14 Years Ago Today  
From the Register Files

FEBRUARY 14, 1910.

The Misses Neva Sturdevant, Edna Foote, Lena Lee, Winifred Reid and Hazel Butterfield will be graduated tonight from the Santa Ana Hospital Training School for Nurses.

James Toland, charged with stealing a watch and clothes from a man's pocket at Anaheim, was ordered sent to the Patton insane asylum.

P. M. Ellsworth died of heart failure at his residence on Greenleaf street.

A burglar who broke into the McAdams hardware store made away with a rifle, a knife and four revolvers.

Walter Johnson, Washington American league pitcher, won his own game from the Coast league All-Stars with a home run in the eighth inning.

The Misses Hazel and Marvel Baker were hostesses at a Valentine party at which covers were laid for the Misses Lena and Hazel Thomas, Shirley Thomas, Frances Adams, Florence Mullins, Carrie and Florence Yoch and the hostesses.

Pulpits at virtually all Santa Ana churches were filled by speakers from the state Y. M. C. A.

Officers Murray and Boynton stopped a fight early this morning at a local restaurant and jailed the participants.

## Better Homes

"Maintaining a high percentage of individual home owners is one of the searching tests that now challenge the people of the United States," according to Herbert Hoover, Secretary of Commerce. Mr. Hoover is president of Better Homes in America, the educational movement for the improvement of American homes from the standpoints of comfort, convenience, beauty, and economy of management.

Encouraging thrift for home ownership is one of the many aims of Better Homes in America. Government figures show that in 1920, when the last general census was taken, only 456 American families out of each 1000 owned the homes in which they lived, a decrease of five families for each thousand compared with two decades before. North Dakota led all other states of the Union, 653 families in each 1000 owning the homes in which they lived.

Buying a home is often the largest investment made by a family. Usually it is done but once, therefore the average family head is a novice when it comes to determining what can be devoted from the family income to this purchase of a house, and what risks are being undertaken. The Department of Commerce has had experts study this question—Dr. John M. Gries and Mr. James S. Taylor—and they say the prospective home buyer should catechize himself in this way:

"What is the family's annual income, and what will it probably be next year and the year after?"

"If business slackens, is he likely to lose his position or have his earnings reduced?"

"Will anyone else in the family be able to earn an income?"

"What does the family now pay for rent each year?"

"How much of the income is being saved?"

"How much could the family afford to pay out each year in paying for a house, and for the expenses that go with it?"

Dr. Gries is treasurer of Better Homes in America. Mr. Taylor, his assistant, is its secretary.

These experts strongly urge that written agreements be made by home purchasers in regard to financing, building, and purchasing, with careful attention given to legal details.

The largest possible original cash payments on homes being purchased are urged, as this cuts down the size of future payments and interest on the balance of the purchase price.

These things, according to the Department of Commerce experts, should be considered:

1. General location:  
A. Land values—high or low.  
B. Transportation facilities to place of work and shopping centers.

C. Protection offered to homes, (private restrictions, zoning ordinances, fire and police protection).

2. Specific location of lot:  
A. Character of the neighborhood.  
B. Location with reference to schools and playgrounds for children.

C. Desirable points, (shade trees and shrubs, set of house with reference to sunlight and prevailing winds, character of the soil and necessity for grading, filling, or draining.

3. Other safeguards in buying property:  
A. Danger in buying a lot too long before building.

B. Extent of improvements, paving, sidewalks, water supply, gas, electricity, sewerage.)

C. Possible assessments.  
D. Proportion of lot values to total outlay.

E. Checking property values, (land and house).  
F. Plan of house and quality of construction.

G. Steps taken in buying.  
H. Examination of title.

A number of special ways of saving money in building houses are pointed out. For instance, experts figure that from \$50 to \$150 may be saved by omitting basement partitions in building a five or six room house. Leaving off a porch, which may be added later if desired, saves from \$300 to \$600 on the original cost of the house. The use of stock sizes of moldings, doors, fittings, and such cost less than special millwork, and there is less waste.

Better Homes in America is fostering a widespread interest in the improvement of American homes. The physical housing of the family is but one angle of the educational campaign which it is waging throughout the United States for the third successive year. The scientific arrangement of utility portions of homes, such as kitchens, the beautification of homes, the proper furnishing, pictures, books and music, good home management through budgeting the family income—these and more are being urged by Better Homes in America.

Professor James Ford, on leave of absence from Harvard university, is executive director of Better Homes in America this year. The movement, which derives no support whatever from any commercial interests, had the strong backing of the late President Harding, has continuously had the interest and strong endorsement of Calvin Coolidge since its inception, and is headed by Secretary of Commerce Hoover as president. Its directors and advisory council comprise nationally known men and women leaders of thought.

"Better Homes" weeks have been held for the past two years, with about 500 cities demonstrating model homes in 1922, approximately 1000 demonstrating them last year. Over 2,000,000 persons attended the demonstrations of 1923.

ADVENTURES  
OF THE TWINS

by Olive Roberts Baiton

## NO. 24—SEVERAL RIDDLES

"Instead of a long riddle today," had worked in the Fairyland Post-office helping Mister Stamps. But anyway—did you ever, ever, ever hear of anyone in Mother Goose Land writing a letter?"

Yes, that's what it was, a letter, and Nancy guessed it and got a nice box of writing paper of her own with pictures on it. The Mother Goose people thought it very curious.

"Now then, for the third riddle," said the Riddle Lady. "Listen carefully:

"It lives in a cellar, But never leaves the Kitchen. It's one of the seasons, Yet never sees the sky, Cap is full of holes, But never puts a stitch in. Must have its reasons; Can you tell me why?"

Well, sir! Everybody nearly guessed his head off. But not a person could get it. Not even Nancy and Nick, and usually they could guess anything.

"Perhaps the kitchen is in the cellar. Some are," said the Crooked Man, whose front door went in the back way.

"No!" the Riddle Lady shook her head. "Not this cellar."

"And a season just cannot be in the house!" declared the Old-Woman-Who-Lived-Under-the-Hill.

"This one can," smiled the Riddle Lady. "There are other seasons besides summer and winter and spring and fall. Perhaps I should have said 'The four seasons' instead."

That let the cat out of the bag! "Salt!" shouted everybody at once.

"That's right," laughed the Riddle Lady. "There is no prize. You were all too slow."

(To Be Continued.)
